Options

| No. | Option | Advantages | Disadvantages | |
|-----|--|--|--|--|
| 1 | Approve the draft reserve and beach management plans | Meets the Board's statutory requirements to approve the draft plans as the management plans | There are no known disadvantages to approving these plans. | |
| 2 | Do not approve draft Beach Management Plan. | There are no known advantages to not approving the draft plans as the final management plans. | The Board risks losing the momentum it has gained during 2020. | |

The staff's recommended option is one – Approve the draft reserve and beach management plans

Considerations

1. Community and Māori Impact Statement

The approval of the draft plans will have benefits for the community and Māori as the Board and their respective entities, can collectively transition to implementation of the various short-term deliverables found within the plan. The ability of the Board to deliver on feedback received during the various consultation events and included in the plans, will assist in building the relationship of the community and Māori with the Board.

2. Financial Implications

There are no additional known financial implications associated with approving the draft plans attached to this agenda report.

Tuhinga | Background

Early Engagement

Initial public engagement to help develop the draft took place over ten weeks from mid-July to late September 2019 and involved four hui, three public drop-in events, development of a website and the circulation of a consultation document to all post boxes in Te Hiku. The Board subsequently gathered more information last summer to 'ground truth' what they had already been told with the Te Hiku community and beach users, as well as capture views from absentee landowners and others home for summer.

Following early engagement, consultants Steve Sanson and David Badham, with input from the Technical Steering Group and Matua Graeme Neho, worked to develop drafts for the Beach Management Plan, Reserve Management Plans, Supporting Evaluation Document and the Deliberation Reports. These documents were subject to public consultation in Sep/Oct 2020.

Following consultation on the draft plans, Steve and David provided recommendations to the Board as to appropriate changes to the plans following feedback received during consultation. The Board will have deliberated on these changes and the draft Beach Management Plan (BMP) is now ready for final notification and is subject to final Board approval only (Attachment 1).

Reserve Management Plans

The BMP must include Reserve Management Plans for areas A, B, C and D which must provide for the matters set out in section 41(3) of the Reserves Act 1977. Only the iwi representatives on the Board have authority to make decisions over these areas. Steve Sanson has worked with iwi members on the Reserve Management Plans since the June meeting. Subject to any direction on the current documents, the Reserve Management Plans can be made ready for final notification following Board approval.

Supporting Document

It is a requirement of the settlement legislation that a supporting document is developed that:

"... must consider and document the potential alternatives to, and potential benefits and costs of, the matters provided for in the draft $plan^{1}$ "

The final Supporting Evaluation Document was approved at the Board meeting held on 21 August 2020. No changes have been made to the Supporting Evaluation Document.

Formal Consultation, hearings and deliberations

Formal Consultation was undertaken during September and October 2021. There were 34 written submissions, and two late written submissions received in relation to the Te Rautaki o Te Oneroa-a-Tōhe | Draft Te Oneroa-a-Tōhe Beach Management Plan and Draft Reserve Management Plans. A hearing was held on 22 October 2020 where the Board heard oral submissions in relation to the BMP and RMP.

The submissions received and heard resulted in a number of recommended changes to the BMP and RMPs. These changes were generally characterised as minor changes.

Throughout the process a number of key issues were brought forward by the community and many of these issues remained of relevance from the first consultation events that took place, all the way through to the formal hearing. A consultation report was presented to the board by Consultants, David Badham and Steve Sanson that addressed the various submissions made, and provided recommendations for changes to the BMP and RMPs to the Board for consideration. This report provided the basis for Board deliberations at the Board meeting held on 23 November 2020.

Final Stage

The final stage of developing the beach management plan is for the Iwi and Board to approve the Draft reserve and beach management plans (respectively). The drafts plan attached to this agenda represent the plans that were made publicly available for formal consultation and updated as per Iwi and Board November deliberations meeting.

Some minor updates to the content, graphics and formatting of the documents is required prior to final printing. To ensure prudent use of Board funds, the contractor - Level - will only be engaged to update the design versions of the plans once the content in the attachments to this agenda have been approved.

Once adopted, these plans will be publicly notified. Once publicly notified, the plans will become operative.

TIHE I MAURIORA.

A. KUPU WHAKATAKI | FOREWORD

As the conservation ethic in New Zealand has transitioned towards embracing indigenous paradigms, models of management and best practice, introducing the notion of katitakitanga and engagement with tangata whenua as partners greatly enhances environmental practices and outcomes. Te Oneroa-a-Tôhe / 90 Mile Beach Board is an example of this partnership which was established via direct negotiations between Iwilwi and the Crown.

The Beach Management Plan forms part of the redress package for historical grievances against iwilwi and hapūHapū and is constructed for future generations, with local government working together with, and led by, iwilwi. This enables outcomes that meet the needs of all parties and, for the first time in modern history, Māori objectives can now be prioritised. However the most important and shared objective is the integrity of the beach. Environmental, cultural, social and economic outcomes have always been the strands of holistic management spanning from the pre-European times until today.

The wellbeing of the Māori people is inextricably linked to the welfare of the beach. In the instance of our taonga and the beach, we have an incredible opportunity to give effect to the vision that some believe is not possible. We now have the necessary tools and ingredients to establish a management regime that will reflect all of our needs and priorities, built upon a platform of redress for generations of prior injustices and a retreat from colonial misconceptions.

In 2020, the mauri of Te Oneroa-a-Tōhe is showing signs of fatigue, with the scars of historical damage, neglect, pollution and abusive behaviour being observed by present generations. The tide must turn to regain favour for the protection of the mauri and we must all be ready to take that opportunity. 2020 is that time. Claims have been heard, grievances established and institutional arrangements righted. All that remains is for New Zealanders to embrace this opportunity and the kaitiaki will re-e-merge with the vitality of the mauri.

The purpose of the Te Oneroa-a-Tōhe Board is to achieve these goals and evaluate our progress according to indicators drawn from across the spectrum of stakeholders, government agencies and iwijwi Māori.

Me anga mua tātou, mai i te huarahi tawhito ki te huarahi hou. Ma ngā tikanga Māori me ngā ture o Te Tiriti o Waitangi hei whakapūmau, hei tautoko i ngā kōrero e pa ana ki te mauri o Te Oneroa-a-Tōhe. Ma tō tātou whakakotahi, ka puāwai ngā kākano i rūia mai e wā tātou Tūpuna.

We must move from the past to a new pathway, it will be the protocols of Maori and the laws of the Treaty of Waitangi that will guarantee and support the spoken words relating to the wellbeing of Te Oneroa-a-Töhe. As we seek unity, the seeds sown by our ancestors will blossom.

D. TE HUARAHI O TÕHE | THE PATHWAY OF TÕHE

Tohe's Pathway - A Summary (2020)

Tōhe lived in his Whāro Pā, near Pīwhane. Although he was an elderly man at the time of this journey, he was well known by many to have the status of a highly ranked and respected Chief.

Tōhe's journey began when he received the message that his eldest daughter Raninikura, had been taken from the home of her cousins. When he heard that she was taken by Ngāpuhi warriors, he became anxious and suspected that she would be in danger. Although this journey was against the wishes of his whānau, Tōhe asked that if he didn't return alive, they could snatch his spirit when it passed Pīwhane.

From here, Tohe and his warrior companion Ariki (Tama) set out on their journey to find Raninikura.

The pair headed west from Piwhane towards Te Tuāru Beach. The winter season was upon them and flooding was a common occurrence at this time. The journey was slow due to Tôhe's age and the weather conditions.

From Taumataniwhā Pā the pair reached the area now known as Te Paki. From Te Paki they travelled to Lake Ngakēkēto and then climbed up and down the large sand dunes to reach Kahōkawa, on Te Tuāru Beach.

From Kahōkawa the pair passed Te Neke then reached Kauēparaōa. It was here where they found a dead whale and extracted the jaw bone. From here they could see the magnificent offshore Island of Matāpia.

As the pair moved along Te Tuāru Beach, they observed and gave appropriate names to many places. The natural environment was so prominent that many of the names found then still correspond with something observed in the natural environment today.

Te Tuāru Beach was full of wildlife and flowing water that linked the

mountains to the sea. From Matāpia, the pair ventured pass Köhangatī, Waīkarōrō, Waīkanae, Waīpakarū and Waītoīki. All of these places had links to the water and the wildlife that were present at the time (penguins, herring gull, mullet and tiger sharks).

From Waītoīki, they ventured past Wakatehāua, Waīkōrōpupūnoa, Waīwhērowhēro, Te Ārai, Waīmāhuru and Waīpuna. It was here the pair found numerous waterways which provided them sustenance for their journey. The pair were also met with a number of challenges.

At Ngātamarāwaho for instance they were faced with a series of animal traps which required them to continue their journey along the Te Tuāru Beach.

D. TE HUARAHI O TŌHE | THE PATHWAY OF TŌHE

From Ngātamarāwaho, they rested for the night on top of Utea Mountain in the area of Hukatere. It was here that the pair could scout forward and see where they needed to go to next. From Hukatere they ventured on to Walhī, Waimoho and Ngāpae.

Tohe and Ariki were never without food on their journey along Te Tuāru Beach. At Waītāhuna for instance, snapper, muliet, kahawai and flounder were all trapped in a large sandbank that could be easily caught and kept for their journey.

From Waītāhuna, they passed Waīmimihā, Waīhonūhonū, Waīroa then on to Whāro. Tōhe named this place Whāro, as it reminded him of his Pā in Pīwhane. He recited that when you look at the high mountain, the long ridge on the other side, hear the sounds of crashing waves, wide expansive beach and the red haze of the setting sun, you begin to feel lonely for Whāro Pā in Pīwhane.

The pair continued from Whāro to Te Kōhanga, Te Hūahūa, Whārikiriki then on to Tauroa. From Tauroa they ventured on to Te Omū, Whakaōra, Ōakura, Tanūtanū and Waītaha, then followed the shoreline of Ōwhata Harbour before reaching Rangīkohū.

From Rangīkohū the pair ventured past Hērēkino and reached the Whāngapē Harbour. They crossed here and followed the coastline until they reached the Hokiānga Harbour. Tõhe was not physically strong enough to cross such a wide and dangerous harbour. Tõhe named this place Te Whānui (far too wide).

From Te Whānui the pair journeyed inland, following the north edge of the Hokiānga Harbour, passing several significant sites before reaching where they believed was a suitable place for them to cross to the other side. Tõhe named this place Karaka (trees on island). From Mötükaraka, Tõhe and Ariki achieved their crossing of the Hokiānga Harbour onto the coastal shores where they were united again. Tõhe named this place Whīrīnaki (united).

From Whīrīnaki, the pair followed the coastal shores, passing through areas now known as Õponõnī and Õmāpere, until they reached the entrance of the Hokiānga Harbour. They rested here for the night, however the echoing noise from the seals barking in the rock caves below soon made it an unpleasant place to rest. Tõhe named this place Rüakēkēno (rua/cave; kēkēno/seal).

From here they climbed up difficult terrain to reach the prominent spur Tohe named Te Pikinga, then down rolling hills on the other side of Te Hekenga, then on to a flat plateau below. It was here where they crossed this undulated swamp. Tohe named this place Waīwhatawhata (waī/water; whatawhata/undulated).

Leaving Waīwhatawhata, the pair returned to the coastline, reaching the beach by sunset. It was here they were suddenly alerted to the distinctive kuru calling from the owl (ruru). Tõhe said, "this calling is letting us know, there's bad luck ahead for us". Tõhe named this place Põkuru (põ/night; kuru/owl call).

From Pōkuru the pair journeyed on and arrived at a rocky outcrop where they found respite. Tōhe explained that this rocky outcrop was a seafood basket, or abundant with seafood, hence he named it Kaikai.

From Kaikai the pair journeyed along the beach and found more water flowing out to sea. They ventured inland, onto a large plateau, where they found a large flowing river. Tōhe named this place Waīmamakū (wai/water; mamaku/flowing resource).

D. TE HUARAHI O TŌHE | THE PATHWAY OF TŌHE

From Waīmamakū, the pair journeyed on and covered considerable distance when Tōhe found his health deteriorating so they decided to rest for the night. It was here when Tōhe offered his prayers to his ancestral Gods, asking them for the strength and courage to continue. Tōhe named this place Whākanōa (spiritual blessing).

From Whākanōa the pair journeyed on and found a river camouflaged with tree leaves. Tōhe named this place Waīrau (waī/water, rau/leaves).

From Waīraū the pair continued along the beach then on to a huge plateau below several large mountain in the area. Tõhe named this place Maungānui (maungā/mountain; nui/large).

From Maungānui they journeyed on and found a tidal estuary. Tõhe explained to Ariki that the large catchment of this area would flow into this tidal estuary. Tõhe named this place Waī-Taī (freshwater meeting saltwater).

From Waī-Taī the pair journeyed on at a very slow pace as Tōhe's health was rapidly deteriorating. It was here where Tōhe finally lost his strength to continue and laid down and died. Sadly, Tōhe's life ended at this site before he was able to reach his daughter Raninikura. His body was later found here surrounded by numerous birds feasting on his corpse. Those who found Tōhe's remains named this site Manūwhētaī (manū/bird; whētai/gratifying).

We acknowledge the mountains, Te Tuāru Beach, the rolling hills, the flora and fauna, the lakes, the rivers, the flowing streams, the animals and the other environmental features and landscapes that the pair saw, and we are reminded of what was once a truly untamished environment. These accounts will humble us to return to the practices of our ancestors who kept our environment healthy, brimming with life, and sustainable.

Tōhes's love for his daughter Raninikura never dwindled, even as his spirit made the journey back home through Te Ara Wairua and many of the places he had been, before returning to his ancestors of Te Ngake, Te Kaha and Ngāti Kaha and Pīwhane. His whanau made a final tribute to him by snatching his spirit as he passed through Pīwhane and as a result of this action, this truly magnificent place of Pīwhane, is now called Kāpowaīrua (snatching of spirit).

As the great story of Tôhe spread throughout Taitokerau, Te Tuāru Beach was renamed by his whānau of Te Kaha to Te Oneroa a Tôhe, ensuring his legacy would last forever.

As with many stories, the ending brings us full circle to where Tōhe began his journey. May I extend my appreciation and credit to our great Ngāti Kuri Rangatira, Ratima Moko Petera and his brother, Hare Poata Petera, for helping me capture this historical account, from our Ngati Kaha ancestors, and allowing me to share Tōhe's story for us to portray for many generations to come.

| E. <u>SPIRITS PATHWAY</u> <u>Te Arawairua ki Hawaiki Pāmamao</u> | - | Commented [ss5]: Reo version required and some images to break up text? Formatted: Indent: Left: 2 cm |
|---|---|---|
| Life after death is a fundamental spiritual notion of human communities all over the world. | | |
| In Actearoa the indigenous worldview is rooted in a six thousand year Polynesian and Pacific history which converges at a common destination and the home of origin we call "Hawaiki." | | |
| The theological and philosphical underpinnings of the Māori pantheist belief system has always been of great interest to european scholars and academics because of its complexity and comprehensive nature as a paradigm of theological ideas. | | |
| Early missionaries and administrators sought to understand Māori customs in order to replace them with their own beliefs and christian theology. Having heard about the journey of Māori souls which follow a defined spirit trail converging on Te Rerenga Wairua to leap into the sea from a sacred "Kahika" tree, it became their mission to understand its significance and if necessary overcome it. | | |
| Before the intrepid voyager Kupe returned to Hawaiki after having named and circumnavigated Aotearoa; he established the sacred trail enabling the spirits of his descendants to also make their return home after death. | | |
| Consequently the existence of the "Arawairua" is a commonly held belief throughout all Māori communities and has for generations been referred to and described by scholars and orators on our marae. In theological terms, it is a pillar of Māori culture and an integral part of our holistic world view. | | |
| Kaitiaki or guardians of its cultural integrity are local tangata whenua who live alongside it. Te Oneroa-a-Tohe also forms a large part of the spirit trail, traversing almost the entire length of the beach and the Boards management area. The path is well known and lies between the low and high tide. But this provenance is considered sensitive and retained within our communities. | | |
| It is perhaps for this reason that the significance of its cultural importance has diminished over time with more and more of the provenance becoming relegated to legend and fable. Cultural commentatories of this nature are now utilised mainly as information of interest to visitors and tourists. | | |
| Consequently the percieved importance and relevance of the Arawairua has continued to decline among the succeeding generations of New Zealanders generally. | | |
| | | |

Iwi of Te Hiku o Te Ika have for decades voiced a growing concern about the importance of the Arawairua and the beach proactively seeking opportunities for manawhenua Iwi to be more involved in the management and protection of it. It was included in the suite of conservation redress mechanisms contained in the "Korowai" which was agreed between Iwi claimants and the crown.

Indeed the Arawairua is also a fundamental issue in managing the beach and its environs, and the Board is required to include its ongoing recognition and protection within the auspices of the Beach Management Plan.

This is also true for the Taniwha known by locals as "Paraweta" who patrols the western tides. And in recognising and protectioning that cultural phenomena, we are achieving a convergence of environmental and cultural outcomes. It would be remises of the Board to ignore this opportunity to emphasise these cultural aspects. By bringing them into the picture we add immense value. It also fulfills the goals espoused by treaty claimants seeking more participation in the design and decision making processes around managing the beach.

However, the inability of the naked eye to physically percieve and observe these phenomenah, makes it difficult to achieve any cognisance around its shape or form. Iwi of the area do have their own methods of noting their presence through stories that recount the chronology of events and circumstances that have created the personality traits and signs of the phenomenah being referred to.

For example there were and are still, certain places along the Arawairua that provide opportunities for a final farewell to the deceased, places for spirits to rest under a tree and drink from special running water. There are people that know about these places and are familiar with their attributes. The small river from which water is drunk by them has a name, the tree they sit under has a name and the specific sites people would come to catch a last glimpse of their loved one have names. In relation to both Te Arawairua and Paraweta there is such a proliferation of stories, events and people that have testified to their veracity, that this increases the focus and value of our managment aspirations.

The challenge the Beach Board has in giving effect to this outcome is significant. However, working closely with our Iwi members and their kaitiaki will provide the direction and efficacy necessary for our new approach.

This relates to the "Mauri" of the beach, and an ongoing and unified committment by all users and stakeholders to its ongoing health and vitality and general wellbeing as a taonga for all.

When we reflect on the signs and the learnings as Tôhe named the waterways and places during his journey, then it is appropriate that we acknowledge the protocols and guardianship of our elders as we unify our approach for the health of Te Oneroa-a-Tôhe.

GF. NGĀ WHAKARITENGA | BACKGROUND

Treaty Settlement

For generations, Te Oneroa-a-Tohe has been a vital resource of food, transport, cultural and spiritual sustenance and recreation for Te Hiku o Te Ika wilwi. Te Oneroa-a-Tôhe is also a part of Te Ara Wairua, which is of utmost cultural and spiritual importance to Te Hiku wilwi.

Ngāti Kuri, Ngāti Kahu, Te Aupouri, NgāiTakoto and Te Rarawa entered into negotiations with the Crown to settle historic Treaty of Waitangi daims. Each iwilwi eventually entered into separate agreements in principle and deeds of settlement. Ngāti Kahu has vet to sign their Deed of Settlement. When their settlement is agreed, it is acknowledged that Ngāti Kahu can join Te Oneroa-a-Tôhe Board through their own settlement legislation.

Each Deed of Settlement outlines the need to establish the Te Oneroa-a-Tohe Board, which requires the preparation of a Beach Management Plan. More importantly, each deed sets out the historical account for each iwilwi in relation to Te Oneroa-a-Tohe and the

importance of this taonga as vital to their spiritual and material wellbeing.

The collective settlement legislation established the Board and provides for the preparation of the Beach Management Plan. There is an enhanced opportunity for iwilwi, councils, Crown agencies and the community to work together, creating a framework for how we can all look after our beach.

One of the main jobs of the Board is to prepare and approve the Beach Management Plan for Te Oneroa-a-Tohe which:

- · Identifies the vision, objectives and desired outcomes for the beach; and
- · Expresses the Board's aspirations for three priority matters:
- Protecting and preserving the beach from inappropriate use and development and ensuring that resources are preserved and enhanced for present and future generations; and
- Recognising the importance of the resources of the beach for Te Hiku o Te Ika iwilwi / hapūHapū and ensuring continued access to their mahinga kai; and
- Recognising and providing for the spiritual, cultural and historical relationship of Te Hiku o Te Ika iwi lwi / hapūHapū with the beach.

Statutory Context

Purpose of the Board

"The purpose of the Board is to provide governance and direction to all those who have a role in, or responsibility for, the Te Oneroa-a-Tohe management area, in order of present and future generations."

to protect and enhance environmental. economic, social, cultural, and spiritual wellbeing within that area for the benefit

Note: As per settlement legislation. See for instance section 64 of the Ngāti Kuri Claims Settlement Act 2015.

GF. NGĀ WHAKARITENGA | BACKGROUND

Influence on other Legislation

The Beach Management Plan has the following influence on other statutory documents:

- Resource Management Act 1991 planning documents including:
- Regional and district plans Northland Regional Council (NRC) and Far North District Council (FNDC) "must recognise and provide for" the Beach Management Plan in the development of their plans
- Relevant regional and district plan resource consent applications – NRC and FNDC "must have regard" to the Beach Management Plan

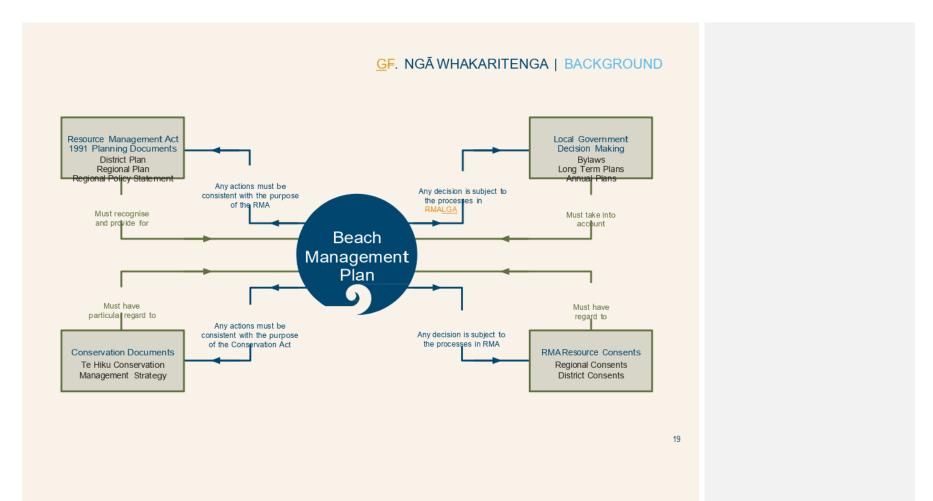

- Conservation Documents The Department of Conservation and the Northland Conservation Management Strategy "must have particular regard" to the Beach Management Plan
- Local Government Act 2002 NRC and FNDC "must take the Beach Management Plan into account" when making decisions.

How was the Beach Management Plan developed?

The Beach Management Plan has been developed with wide-ranging community consultation including:

- An initial public engagement programme from July - September 2019
- A summer engagement programme from December 2019 - February 2020

This feedback has been crucial in making sure that the plan is responsive to the needs of the community and stakeholders.

HG. NGĀ WAWATA | OBJECTIVES & DESIRED OUTCOMES

This section of the Beach Management Plan provides objectives and desired outcomes for the future management of Te Oneroa-a-Tōhe.

These are provided under seven sub-topics shown to the right. One overall objective is provided for each sub-topic followed by explanatory text and desired outcomes related to the objective.

These objectives and desired outcomes need to be considered holistically alongside each other and not in isolation.

This section outlines actions to be taken by the Board, the councils, iwilwi and hap@Hap@ and other agencies in order to achieve

the vision, objectives and desired outcomes outlined previously.

The Board acknowledges in and hapuHapu traditional rights on Te Oneroa-a-Tōhe and (in particular) their right to manage their own areas of Te Oneroa-a-Tōhe (specifically the Conservation Areas addressed in Section I). The Board does not seek to override these rights and actions outlined in this document are intended to be complementary to objectives and desired outcomes in these areas.

ctions also include timeframes as follows:

Short term – within 1-2 years of the Beach Management Plan becoming operative

Medium term – within 2-5 years of the Beach Management Plan becoming operative

Long term – 5+ years of the Beach Management Plan becoming operative

Ongoing - an action that will require ongoing implementation

Te Oneroa-a-Tōhe Board 11 December 2020

KJ. AROTURUKI ME TE AROTAKE | MONITORING AND REVIEW

The Beach Management Plan must be reviewed every 10 years. The next full review of the BMP is scheduled for 2030. The Beach Management Plan represents the starting point for the future management of Te Oneroa-a-Töhe. There is still more mahi to be done. In particular, the Board has three key priorities:

- Action Plan: The action plan will be reviewed every three years to confirm progress towards undertaking the actions and achieving the overall vision, objectives and desired outcomes of the Beach Management Plan.
- Advocacy: The Board will actively promote the implementation of the vision, objectives and desired outcomes of the Beach Management Plan. This includes ensuring that the Beach Management Plan is appropriately considered when other agencies (such as Department of Conservation, Far North District Council and Northland Regional Council) review their own strategic documents.
- Engagement: The Board will continue to actively engage with stakeholders and the wider community regarding the implementation of the Beach Management Plan and any changes in priorities regarding it.

Te Huarahi o Tōhe, 2020

Ko te whakapapa o Tõhe i tīmata mai i te hononga o Põhurihanga o te Kurahaupõ Waka, me Maieke, e Uri nõ Te Ngake. Ko rätou ngā tangata whenua i konei i te taunga mai o Te Kurahaupõ Waka ki runga i ngā köhatu o Te Kapua a Rīpoi, i te takiwā o Te Kötiu.

Nā Põhurihanga rāua ko Maieke i tīmata tõ rāua whānau o Te Kaha i Te Tomokanga Pā, ka neke rāua ki te tahi Whānga o Te Kōtiu. Nā Põhurihanga tēnei takiwā i whakahua ko Pīwhane, hei mõu mahara mõ Pī, e hoa pātata, e kai-ārahi mai i Te Kurahaupõ Waka ki Aotearoa.

Mai i ngā reānga o Te Ngake, Te Kaha, Ngāti Kaha tae noa mai ki tēnei wā ko Ngāti Kuri ngā whakaheke o ēnei tūpuna. Ko ēnei kōrero o te hīkoi o Tōhe heke mai i ēnei Tūpuna.

Ko tënei Tūpuna a Tõhe e Ariki rongo-nui i tõna wā. Ko tõna Pā nāna i hanga ki runga i te rae teitei o Piwhane, ko Whāro, (Te tawhiti o te kitenga) te ingoa. Mai i Waīmāhuru, e āhuru ana te rā ka hīkoi anō Tōhe me Ariki mā runga i te tua whenua i muri atu i ngā puke One. I konei ka kite anō rāua te tahi atu puna wai inu e āta rere ana te wai nei ki te moana. Nā Tōhe tēnei takiwā i whakahua ko Waīpuna.

Mai i Waīpuna, ka hīkoi anō rāua i muri atu i ngā puke One. I konei ka kite oho rere ake rāua i ngā rākau nei e tūtū ana, ka mutu me tuitui ki te korare. Ka pēnei ake Tōhe, "e Tama kia tūpato, kaua e pātata atu ki tēnā kupenga, kei mōu koe. Ko te āhua o ngā here o ēna rākau e kupenga hei hopu kararehe engari ko te āhua, ahakoa te tangata e mōu. Ko tīmata nei te tai ki pari ake, pai atu me rā waho tō tāua haere, me hoki anō tāua ki te hīkoi ma runga te One." Nā Tōhe tēnei takiwā i whakahua ko Ngātamarāwaho.

Mai i Ngātamarāwaho, ka hīkoi anō rāua mā runga i te One o Te Tuāru. I pēnei te kõrero Tōhe, "e Tama me whakatā tāua mō te pō nei, ki runga o tō tāua Maunga o Utea, kei mua i tō tāua huarahi nei." I tō rāua taenga ki te wāhi nei ka kite ake Tōhe i ngā kokohuka i roto i te wai e tere ana ki te Moana. Nā Tōhe tēnei takiwā i whakahua ko Hukatere.

Mai i Hukatere, e āhuru ana te rā, ka mutu ko tata timu te tai ka hīkoi atu Tōhe me Ariki i konei. Ka haere ā ka tae ki te wai nei e rere ana ki te Moana. I tēnei wā e titiro atu ana Tōhe ki te Moana ka pēnei ōna kōrero, "e Tama e kite atu ana koe i ngā Kanae e ranga mai ana i waho atu i te wai e rere nei? E koro ngaro e toka pai tēnei mō te hī. Nā Ariki i whakamahi to rāua Kauae Tohoraha ki te wēpu i ngā tāmure mō to rāua hīkoi. Nā Tōhe tēnei takiwā i whakahua ko Waīhī.

Mai i Waīhī, ka hīkoi anō rāua tae noa ki te wai nei e rere ana ki te Moana. I konei ka hiahia wai inu rāua, ka haere Ariki i kī uta ki te titiro e ahu mai ana te wai nei i hia. I konei ka oho whakarere Ariki i te kitenga i tōna moho i roto i te wai pāpaku nei, ka whakina kia Tōhe. Nā Tōhe tēnei takiwā i whakahua ko Waīmoho.

Mai i Waīmoho, ka hīkoi anō rāua. ko tata ū ake te tai i tō rāua taenga ki te wāhi nei. I pā mai te haunga i mua atu i to rāua kite ngā i ngā mangō Toīki e takoto ana, ko mate, ko pae ake ki atu. Ka pēnei ake Tōhe, "e Tama, anō rā e maumau kai, me te mea nei kanui te roa o ngā Mangō nei e pae ana i konei. Ko tōrongi nei te rā, ka pēnei ake Tōhe, me whakatā tāua i muri i ngā puke One nei mō te pō kia kore ai te haunga e pā mai kia tāua." Nā Tōhe tēnei takiwā i whakahua ko Ngāpae.

Mai i Ngāpae, e āhuru ana te rā, ka mutu ko timu ana te tai, ka tīmata anō to rāua hīkoi mā runga i te One o Te Tuāru. I tō rāua huarahi ka pēnei ake Tōhe, "e Tama, i mua i te tōrongi ngā o tēnei rā, me anga atu wā tāua whakāro kia tae tāua ki te takiwā o te Maunga teitei ki mua ia tāua. Ko reira taua whakatā ai mō te pō nei."

I tō rāua taenga ki te wāhi nei, ka kite ake rāua ko karapoti hia te Tāhuna nei e te Moana. I konei ngā Tāmure, ngā Kanae, ngā Kahawai me ngā Pātiki, e kore puta kia tae ake rānō te tai ki tēnei Tāhuna. I pēnei te kōrero a Tōhe, "e Tama me kohikohi e tāua, ētahi o ēnei Ngohi hei kai mō tāua a te pō nei". Nā Tōhe tēnei takiwā i whakahua ko Watāhuna.

Mai i Waītāhuna, ka hīkoi anō rāua tae noa ki te wāhi nei ka pēnei ake Tōhe, "e Tama, te kaha hoki te hunga mimi hā o tēnei takiwā. Ko te āhua nei, ko tēnā hunga e tīmata mai ana i uta tae noa mai ki te wai e rere nei ki te Moana". Me haere tonu tāua. Nā Tōhe tēnei takiwā i whakahua ko Waīmimintā.

Mai i Waīmimihā, ka hīkoi anō rāua ka kite ake i ngā Honu nei e pae ana i uta i te taha o te wai nei. Ka pēnei ake Tõhe, "e Tama, e kore ēnā Honu e neke, nā te mea ko tata mate. Mau-mau te wā ki te whakahoki ki te Moana, ono hei kai mō ngā Mangō, pai atu me waiho ki konā. Nā Tõhe tēnei takiwā i whakahua ko Waīhonūhonū.

Mai i Waihonühonü, ka hikoi anō rāua ka tae ki te awa nui nei, ka mutu ko te wai nei e rere kaha mai ana ki te Moana. I pēnei ake Tōhe, "e Tama, ko ngā wai o tēnei awa e ahu mai ana i ngā kokoru i raro mai i Maunga teitei i muri atu rā. Ko tīmata nei te rā nei ki te heke haere, pai atu me hīkoi tonu taua". Nā Tōhe tēnei takiwā i whakahua ko Te Waīroa.

Mai i Te Waîroa, ka hīkoi anō Tōhe me Ariki ka tata tae ki te mutunga o te One o Te Tuāru. I tēnei wā ko ū ake te tai i tō rāua taenga mai ki konei, ka whakapuaki ake Tōhe i ōna whakāro kia Ariki, "e Tama ka titiro ake tāua ki te Maunga tei-tei nei, ki te Rae roa i tērā taha, ka rongo ake ki ngā ngaru e haruru nei, ka titiro ki te whānuitanga o te One nei me te kura o te rā e heke nei, ko hoki, ōku mahara me te aroha ki tō tāua Pā o Whāro, i whakarere atu e tāua ki tō tāua papakāinga i Piwhane. Ko te ingoa tika mō tēnei takiwā, ko Whāro." Tōhe tēnei takiwā i whakahua ko Whāro. (Te Tawhiti o te kitenga)

Mai i Whāro, ka pēnei ake Tõhe, "e Tama, pai atu me wake atu tāua i ngā taha-taha o ngā kõhatu nei, kia tae atu ai tāua ki te One i tērā taha. I reira ka kake atu ai tāua ki te wähi pongi i taha o te rae roa rā, ka whakatā ai tāua ki reira mō te pō nei." E āhuru ana te rā ka pēnei ngā kõrero a Tõhe kia Ariki, "e Tama kīhei i pai tõku moe i nā pō, nā te turituri o ngā Manu Moana i roto i te kokoru nei. Koia tēnei te kāinga Kõhaga o ngā Manu Moana o tēnei takiwā." Nā Tõhe tēnei takiwā i whakahua ko Te Kõhanga.

Mai i Te Kõhanga, ka hīkoi anõ Tõhe me Ariki mā te takutai, ka tae ki te wāhi nei ka pēnei ake Tõhe, "e Tāma, titiro, e kore roa ko whai hua tāua i konei. Titiro ki ngā Kanae e ranga mai rā i muri atu i ngā ngaru nei." E rua ngā Kanae nā Tama i hopu me tõna Wheua Tohoraha, hei kai mõ rāua. Nā Tõhe tēnei takiwā i whakahua ko Te Hüahūa.

Mai i Te Hūahūa, ka hīkoi anō rāua, ka tae ki te wāhi nei ka kite ake rāua i ngā whāriki whenua me ngā whāriki rimu o te moana. Ka pēnei ake Tōhe, "e Tama, ko tata tōrongi te rā nei, me hipoki ake e tāua ngā whāriki nei hei moenga ngāwari kia mahana, kia pai ai tō tāua moe i te pō nei". Nā Tohe tēnei takiwā i whakahua ko Whārikiriki.

Mai i Whārikiriki, e āhuru ana te rā ka tīmata anō tō rāua hīkoi tae noa ki te pito nel. I konei ka pēnei ake Tõhe, "e Tama me whakataā tāua i konei mõ te wā, kia titiro muru ake ai tāua i te roa o te huarahi ko takahi hia e tāua kia tau mai ki konei." Nā Tõhe tēnei takiwā i whakahua ko Tauroa.

Mai i Tauroa ka hīkoi anō rāua, ka tae ki te wāhi nei, ka huri ake Tōhe ka pēnei, "e Tama e toka pai tēnei mō te kimi kaimoana". Kīhei rāua i roa i konei ka kitea he Koura, he Pāua, he Kīna, he Kūtai he Pūpū, he Karengo, me ngā āhua momo ngohi. Ka pēnei ake Tōhe, "e Tama ko tēnei te Omu e ki ana i te kai moana". Nā Tōhe tēnei toka i whakahua ko Te Omū. Mai i Te Omū ka hīkoi anō rāua ka tae ki te wāhi nei, ka pēnei ake Tōhe, "e Tāma ko pā mai anō tōku hiakai mō ngā kaimoana nei, me whakataa tāua i konei mō te wā kia kai ai tāua. Nā Tōhe tēnei takiwā i whakahua ko Whakaōra.

Mai i Whakaōra ka hīkoi anō, ka tae ki te wāhi nei, ka whakatā anō rāua mō te wā. I konei ka pēnei ake Tōhe, "e Tama, titiro ki te Kura o te rā e pīata mai ana i ngā kapua. Nā Tōhe tēnei Takiwā i whakahua ko Ōakura.

Mai i Ōakura ka hīkoi anō rāua tae noa ki te One roa nei. I konei ka pēnei ake Tōhe, "e Tama ko tōrongi haere nei te rā, ko pā mai te kōpeke ki tōku tinana. Me rapu ake te wāhi pongi hei tanu ai tāua ki te Onepū, kia mahana ai tāua mō te pō nei." Nā Tōhe tēnei takiwā i whakahua ko Tanutanu.

Mai i Tanutanu, e āhuru ana tēra, ka hīkoi anō rāua tae noa ki te wai nei e rere mai ana ki te moana. Ko te kõrero a Tõhe, e Tama ko tēnā wai e rere mai ana i te taha o ngā puke tāhuahua o te tua whenua. Nā Tõhe tēnei takiwā i whakahua ko Waītaha.

Mai i Waītaha ka hīkoi anō rāua i ngā taha-taha o te Wahaapu o Ōwhata, ka mutu ko kapi haere te rangi i te kohu i tō rāua taenga ki te wāhi nei, ka pēnei ake Tōhe, "e Tama e kore tāua e kite e ahu ana tāua ki hia, ko tata tōrongi nei te rā, me whakatā tāua i konei mō te pō nei." Nā Tōhe tēnei takiwā i whakahua ko Rangīkohū.

Mai i Rangīkohū, Ko āhuru te ra, ka mutu ko āhua hiki te kohu, ka hīkoi anō Tōhe me Ariki ma te tua whenua tae ki roto i te wāhi Ngahere nel. I konei ka kite oho whakarere ake rāua i te kitenge i te kupenga rerekē nei te hanga, me kino o ngā here. Ka pēnei ake Tōhe, "e Tama kia tino tūpato kei mõu koe i tēnā kupenga, ko wā rātou rākau mō tēnā kupenga e Karengo ka mutu, me tuitui ki te kōrari. E mate koe pēnā e mõu ana koe i ēnā herenga kino. Me haere atu tāua i konei." Nā Tōhe tēnei takiwā i whakahua ko Hērēkino.

Mai i Hērēkino ka Hīkoi anō rāua tae noa ki te Wahāpu nei. I konei ka kite ake ko maoa ngā hua, ō ngā rākau Karaka e tupu ana i konei. Ka pēnei ake Tōhe, "e Tama ko whai kai tāua i konei, me kohl-kohi e tāua ngā hau o ngā rākau Karaka nei. Ko tōrongi nei te rā me whakatā tāua i konei mō te pō nei. Ko tīmata nei te tai ki te timu, ko wātea a te wā āhuru ai te rā, mō tāua ki te rapu me peha tāua whakawhiti atu ai ki tērā taha o te Wahāpu nei. Nā Tōhe tēnei takiwā i whakahua ko Whāngapē.

Mai i Whāngapē, ka whakawhiti rāua, ka aru haere rāua i te takutai moana tae noa ki te Wahāpu o te Hokiānga. Kāhore i kaha te tinana o Tõhe ki te whakawhti i tēnei Wahāpu whānui nā te ūaūa rawa. Nā Tõhe tēnei takiwā i whakahua ko Te Whānui.

Mai i Te Whānui ka hīkoi rāua ki uta mai i ngā taha-taha o te Wahāpu o Te Hokiānga, ka pāhika i ngā wāhi tino ātaahua, ka tae ki te Moto nei, ka whakāro rāua, ko tēnei te wāhi pai mō rāua ki te whakawhiti ki tērā taha. I konei ngā rākau Karaka e tupu ana i konei. Nā Tōhe tēnei takiwā i whakahua ko Mõtūkaraka. Mai i Mõtūkaraka, ka tutuki te whitinga o Tõhe me Ariki tëra taha o Wahāpu o Te Hokiānga ki ngā taha-taha moana. I konei ka pēnei ake Tõhe, e Tama ko whirinaki ora mai tāua ki tēnei taha. Nā Tõhe tēnei takiwā i whakahua ko Whīrīnaki.

Mai IWhīrīnaki ka aru haere rāua i te takutai moana, ka pāhika i ngā wāhi e mõhio nei i tēnei wā ko Õponōnī me Õmāpere, tai noa ki te tomonga mai o te Wahāpu o te Hokiānga. I konei ka whakatā rāua mō te põ engari nā te turituri o ngā tautau o ngā Kekeno i roto i ngā rua kōhatu i raro ia rāua, ka tino raruraru tō rāua moe. Nā Tōhe i whakahua tēnei takiwā ko Rūakēkēno.

Mai i Rūakēkēno, ka kake rāua, i te puke teitei nei, tae noa ki te pito. Nā Tõhe tēnei takiwā i Whakahua ko Te Pikingā, me i tērā taha ko Te Hekengā. I konei ka heke haere ingā tāhuahau o ngā puke tae noa ki te pararahi i raro. I konei ka whakawhiti rāua i te repo whatawhata nei. Nā Tõhe tēnei Takiwā i whakahua ko Waīwhatawhata.

Mai i Waīwhatawhata ko tōrongi te rā ka hoki anō rāua ki ngā taha-taha o te takutai. I konei ka rongo oho whakarere ake rāua i te karanga kuru, o te Ruru, ka pēnei ake Tōhe, "ko tēnei karanga e whakamātou mai ana kia tāua, e raruraru kino kei mua ia tāua." Nā Tōhe tēnei takiwā i whakahua ko Pōkuru.

Mai i Põkuru ka hīkoi anō rāua, ka tae ki te pito kõhatu nei, e ki ana i te kai moana. Ka pēnei ake Tõhe, "e kāpata kai tēnei," Nā Tõhe tēnei kõhatu i whakahua ko Kaīkaī.

Mai i Kaikai ka hīkoi anō rāua ma runga i te One, ka kitea anō e wai e rere ana ki te Moana. I konei ka peka atu rāua ki te papa rahi nei, ka kite ake i te awa wai nei. Nā Tōhe tēnei takiwāi whakahua ko Waīmamakū.

Mai I Waīmamakū ka hīkoi anō rāua. Ka nui te tino tawhiti o tō rāua haerenga, ka mea ake Tōhe, e Tama ko tīmata tōku hauora ki teimaha haere, me whakatā tāua ki konei mō te pō nei. I konei ka tīmata a Tōhe ki te tuku karakia ki ōna Tūpuna Atua, kia manākitia tō hauora me te kaha ki te haere tonu. Nā Tōhe tēnei takiwā i whakahua ko Whakanōa.

Mai iWhakanōa, ka hīkoi anō rāua, ka kite ake i te awa nei ko hipoki hia e ngā rau rākau. Nā Tōhe tēnei takiwā i whakahua ko Waīraū.

Mai i Waīraū, ka hīkoi anō rāua mā runga i te One, ka huri ka kake mā runga i te papawhenua tino rahi, i raro mai i ngā Maunga tei-tei o tēnei takiwā. Nā Tōhe tēnei takiwā i whakahua ko Maungānui.

Mai i Maungānui, ka hīkoi anō rāua ka kite ake i te awa nei. Ko te whakamārama o Tōhe kia Ariki, ko ngā wai maha o tēnei takiwā, e rere atu ana ki te awa nei, ko hono atu ki ngā wai o te moana. Nā Tōhe te takiwā i whakahua ko Waī-Taī.

Mai i Waī-Taī, Ka āta haere tõ rāua hīkoi nā te ngoikore o te hauora o Tõhe. I konei ka pēnei ake Tõhe, "e Tama ko pou tõku kaha ki te hīkoi tono, me tuku koe ia hau kia mate i konei, ka hoki ai koe ki tõ tāua kāinga i Pīwhane." Ka takoto te Rangatira nei, ka hemo, ka oki-oki i konei.

Ka pā te aroha, kīhei Tōhe i tae ki tōna kōtiro a Raninikura. Nā ngā tāngata o tēnei takiwā, tōna tinana i kite i konei e timotimo hia-ana e ngā munu. Nā ngā tāngata i kitea ai te wāhi oki-oki ngā o Tōhe, i whakahua tēnei takiwā ko Manuwhētai. Me mõu mahara tātou ki ngā Maunga, ngā Tāhuahua, ngā Takapou, ngā Roto, ngā Awa, ngā Wairere, ngā Kararehe, Te One o Te Tuāru, Ngā Puke One, Te Taiao, Ngā Takutai me Te Moana nui o Rehua, i kite ai Tõhe, hei mõu whakamahara kia tātou i te ätaahua o tõ tätou Taiao.

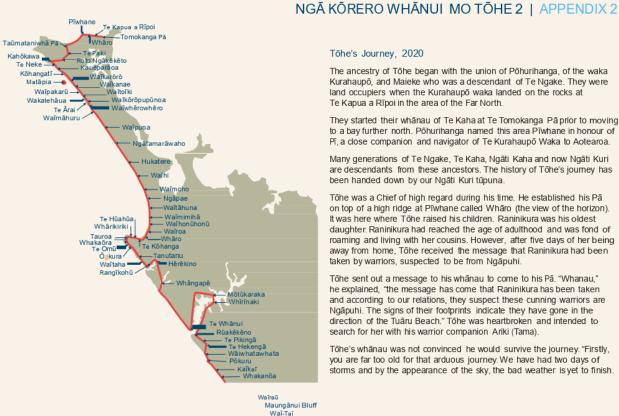

Ko wā rātou tohutohunga, hei whakaiti ia tātou, kia hoki anō tātou ki ngā tikanga o wā tātou Tūpuna, kia ora ai te Taiao kia puāwai ai mō te Ao-Tūroa.

Ko te aroha a Tõhe mõ tõna kõtiro a Raninikura kīhei i mimiti, ko tõna Wairua i hoki ki te käinga mai i Te Ara Wairua ki ngã wāhi katoa i kite ai ala i mua o tõna hokinga ki õna Tūpuna o Te Ngake, Te Kaha, Ngãti Kaha me tõna whānau i Pīwhane i whakahõnore i õna tūmanako, kia kapo hia tõna Wairua I te wã e pahia ai i Pīwhane.

Hei whakahōnore i tēnei Tūpuna rongo nui a Tōhe, ka whakahua hia tēnei kāinga tino ātaahua o Pīwhane, ki Kāpowaīrua. Ko te hītori o Tōhe i ruia whānui hia i Te Taitokerau. Ko te ingoa o te One o Te Tuāru, nā tōna HapūHapū o Te Kaha i whakahua ko Te Oneroa a Tōhe kia ora tonu ai tōna mana me tōna mātauranga mō ake-ake tonu.

Ko ngā hītori pēnei, ko haere hurirauna, tahinoka hoki mai ki te wāhi i tīmata atu ai te hīkoi a Tōhe. Me whakawhētai, whakahōnore ake a hau ki ōku tino Rangatira o Ngāti Kuri, a Ratima Moko Petera me tōna teina a Hare Poata Petērā, mō wā rāua kōrero, mai ingā tūpuna o Ngāti Kaha, me tō rāua aroha ki te whāki mai iēnei kōrero kia tuhia e hau, hei whakapuaki atu kia tātou katoa, me ngā uri whakatupu kei te haere mai.

Tōhe's Journey, 2020

The ancestry of Tohe began with the union of Pohurihanga, of the waka Kurahaupo, and Maieke who was a descendant of Te Ngake. They were land occupiers when the Kurahaupō waka landed on the rocks at Te Kapua a Rīpoi in the area of the Far North.

They started their whānau of Te Kaha at Te Tomokanga Pā prior to moving to a bay further north. Põhurihanga named this area Pīwhane in honour of Pī, a close companion and navigator of Te Kurahaupō Waka to Aotearoa.

Many generations of Te Ngake, Te Kaha, Ngāti Kaha and now Ngāti Kuri are descendants from these ancestors. The history of Tohe's journey has been handed down by our Ngāti Kuri tūpuna.

Tohe was a Chief of high regard during his time. He established his Pā on top of a high ridge at Piwhane called Wharo (the view of the horizon). It was here where Tohe raised his children. Raninikura was his oldest daughter. Raninikura had reached the age of adulthood and was fond of roaming and living with her cousins. However, after five days of her being away from home, Tohe received the message that Raninikura had been taken by warriors, suspected to be from Ngāpuhi.

Tohe sent out a message to his whanau to come to his Pa. "Whanau," he explained, "the message has come that Raninikura has been taken and according to our relations, they suspect these cunning warriors are Ngāpuhi. The signs of their footprints indicate they have gone in the direction of the Tuaru Beach." Tohe was heartbroken and intended to search for her with his warrior companion Ariki (Tama).

Tohe's whanau was not convinced he would survive the journey. "Firstly, you are far too old for that arduous journey. We have had two days of storms and by the appearance of the sky, the bad weather is yet to finish.

Secondly, we see your frail appearance and we are afraid you might die on this journey." Tōhe's response was, "if I don't return alive, you can snatch my Spirit when it passes Pīwhane."

Tōhe was not fearful of this journey he was about to embark on as he was familiar with the people and places on the entire Far North Peninsular. Tōhe's companion was given the name Ariki at birth, however on this journey he called him Tama.

They were ready to leave when Tōhe said, "Tama, to enable us to journey quickly to the Ngāpuhi area, the best way would be to journey west along Te Horo Beach, then climb the hills to Taūmataniwhā Pā." After some time, the two reached the Pā and stayed there overnight.

The sun was rising the next day and it was still raining when Tôhe and Ariki left Taümataniwhā Pā. They descended down several hills until they arrived at a river where their journey was held up due to a flood. Tôhe turned to Ariki and said, "Tama, we will rest here until this storm settles". The sun was rising the next day when Tôhe said, "Ko Paki te rā nei, Tama (this day appears to be fine)." They waited for the flood waters to recede and continued their journey. Tôhe named this place Te Paki.

From Te Paki, they continued on and found the flooding had caused a lake to collapse. They stopped and observed large numbers of fish and eels turning aimlessly in the wet areas. Ariki said, "This resembles a mass of maggots." Tõhe replied, "Yes correct Tama, this is a bad sign. Before we leave here we will gather some fish and eels for us to eat at the beach. We will have to go to the other side of the lake, climb those sand dunes and head down to Te Tuāru Beach." Tõhe named this lake Ngåkěkěto (mass of maggots).

From Ngākēkēto, they journeyed on until they arrived on Te Tuāru Beach. Tōhe said, "Tāma, the sun is starting to set, this would be a good place for us to rest for the night." Ariki went to gather leaves from the trees growing in this area, thinking they could be eaten with their fish and eels. Tōhe exclaimed, "No Tāma! Those leaves are sour to eat. They would need to be soaked for a while in water before they can be eaten." Tōhe named this place, Kahōkawa (kahō/cask; kawa/sour).

The sun was rising and the tide was low when Tōhe and Ariki journeyed on from Kahōkawa. They saw more fresh water flowing and rested at this waterway for a short while. Tōhe said, "Tama! Look at this water barely moving. We are ready to move on from here." Tōhe named this place, Te Neke (to move on).

From Te Neke, Tõhe saw a large object on the inner shore of the beach. "Tama, though it is far in the distance, I can see those birds working at what appears to be a dead whale onshore, next to that flowing stream. Tama, you go ahead and extract its jaw bone and leave the meat there". While they were here, Tõhe explained that the stream of water here, flowing out to sea, was from Ngakěkěto Lake. Tõhe named this stream Waīroto and the site where the whale was lying, Kauēparaõa (kauē/ jaw bone; paraõa/whale jaw meat).

From Kauēparaõa, Tõhe looked out to sea. He said, "Tama, look at that island out at seal What is that shining through the Island?" Ariki's response was, "It looks like a spear point has pierced through that island." Tõhe named this offshore Island, Matāpia (matā/spear point; pia/piercing through).

As they approached closer to the inner shore near Matāpia, Tōhe said, "Tama, this water running out to sea is coming from that small native plantation further inland. That is the nesting home of the penguins in this area." Tōhe named this place Kōhangatī (kōhanga/nesting home, penquins/Tī-Kōrōra).

From Köhangatī, they journeyed on until they found another flowing water source. The herring gulls seemed abundant in this area. Töhe explained, "Tama, behind those sand dunes is the nesting home of the herring gulls that you see flying around here." Tõhe named this place, Waīkarörō (waī/ water, karörō/herring gull.)

From Waīkarōrō, they journeyed on until they found mullet in a shallow creek. Tōhe said, "Tama, the sun is setting, we will rest here for the night now that we have these mullet to eat." It rained during the night through to the early moming. There was dense fog and the tide was nearly on its way in when they left this area. Tōhe named this place, Waīkanae (waī/ water,; kanae/mullet).

From Waīkanae, they journeyed on and found more flooding, pouring down from the inland hills, and the tide was well on its way in. Tõhe named this place Waīpakarū (waī/water; pakarū/ flooding down).

From Waīpakarū they continued on their journey and at this stage the tide was almost in. They came across a stranded tiger shark dose to shore. Tōhe named this place Waītoīki (waī/water, toīki/tiger shark).

As they headed south of Waitoīkin the dense fog was slowly starting to lift. It was here where Tõhe was able to see waves breaking on rocks out at sea. "Tama, what is that out at sea?" Ariki responded, "It appears to be a waka, maybe, not sure?" When they got closer, they could see it was a small offshore island. They rested here while they were waiting for the tide to turn and recede. Tohe named this island Wakatehāua (waka/canoe; te/maybe; hāua/not sure).

From Wakatehāua, they travelled on and found more water slowly seeping out to sea. It was here when Ariki decided to look for the source of the water. It wasn't long before he returned and said, "This is fresh drinking water and its continuously bubbling from an underground well". Tōhe responded, "That's good, we now have drinking water". Tōhe named this place, Waīkōrōpupūnoa (waī/water, kōrōpupūnoa/bubbling continuously).

From Waikoropupūnoa, they continued on their journey and came across another waterway. This one was different as they observed reddish coloured water flowing to sea. Tõhe explained, "Tama, as you can see this red rustic coloured water is running from inland and that same appearance is in this water running out to sea." Tõhe named this place Wai-Whērowhēro (wai/water, wherowhero reddish appearance).

From Waīwhērowhēro, they continued on their journey and came across a large rock on their pathway. Though the tide was already receding, they were held up here because the waves were breaking on this rock. Tōhe said, "Tama, wait for a short while and a passage will appear for us soon." After a time, a passage appeared and the two were able to continue their journey. Tōhe named this rock Te Ārai (passageway).

From Te Ārai they observed a large swamp area behind the sand dunes as they rested in this area. Tôhe explained, "Tama, the huge catchment of swamp water in this area is flowing swiftly from this large wetland further up, and then out to sea. The sun is slowly setting so it would be best for us to cross to the other side of this running water and rest there for the night." Tôhe named this place, Waīmāhuru (waī/water; māħuru/flowing swiftly).

The sun was rising the next day when Tōhe and Ariki journeyed from Waīmāhuru, on land behind the sand dunes. It was here they found another underground fresh water well slowly seeping out to sea. Tōhe named this place Waīpuna (waī/water; puna/underground well).

From Waīpuna they continued their journey on land over the sand dunes. They were suddenly surprised to see sticks standing and sown together with flax. Tôhe cautioned Ariki and said, "Tama, be careful, don't venture too close to that trap, you may get caught. The way those sticks are sown together indicate they are a trap for catching animals, however it appears even humans will get caught. The tide seems to be on its way back in so it would be best that we avoid that trap and go back out to Te Tuāru Beach." Tõhe named this place Ngātamarāwaho (nga tama/we both; ra/go waho/out).

From Ngātamarāwaho, they continued their journey back to Te Tuāru Beach. Tõhe said, "Tama, we will rest the night on our mountain in the far distance ahead." When they arrived at this place, Tõhe noticed the sea foam in the water, drifting out to sea. Tõhe named this place Hukatere (koko hüka/sea foam; tere/drifting).

The sun was rising and the tide was nearing low when they journeyed on from Hukatere. Along the way they found more water. Tohe looked out to sea and said, "Tama you can see the shoaling of mullet just beyond this water running out to sea. You can be assured this would be a great fishing ground." Using their whale jaw bone, Ariki caught two mullet for their journey. Tohe named this area Waihī (waī/water; hī/fishing).

From Waīhī they journeyed on and found more water flowing out to sea. They were in need of drinking water at this time so Ariki ventured inland to look for the water source. When Ariki found the source, he was suddenly surprised to see his own shadow in a shallow pool of fresh water and explained this to Tõhe, who named this place Waīmoho (waī/water, moho/shadow).

From Waīmoho they journeyed on. It was nearly high tide when they arrived at this site. They first smelt, and then saw, numerous dead tiger sharks lying high ashore. Tôhe said, "Tama, this is a waste of food and it appears these sharks have been stranded here for a while."

The sun was setting when Tohe suggested to Tama, "Let's rest behind the sand dunes for the night, so the smell doesn't reach us." Tohe named this place, Ngāpae (nga/many; pae/together).

It was sunrise and the tide was on the way out when they continued their journey from Ngāpae along Te Tuāru Beach. On the way Töhe turned to Ariki and said, "Tama, before sun set, we will need to focus on reaching the high mountain in the far distance ahead of us. It is there where we will rest for the night."

When they arrived at this place, they noticed a large sandbank surround by sea. It was here where they found snapper, mullet, kahawai and flounder that couldn't escape until the tide reached this sandbank. Tôhe turned to Ariki and said, "Tama, we will gather some of these fish for us to eat tonight." Tôhe named this place Waītāhuna (waī/water, tāhuna/ sandbank).

From Waitāhuna, they journeyed on and when they reached this place, Töhe turned to Ariki and said, "Tama, there seems to be a strong pungent odour in this area. This foul odour appears to be coming from inland and down through this water flowing out to sea. We need to move on from here." Töhe named this place Waimimihā (waī/water; mimihā/pungent odour).

From Waīmimihā, they continued on and along the way they found two turtles lying on the inner shore of the beach. Tõhe turned to Ariki and said, "Tama, those turtles won't move because they are almost dead. It would be a waste of time returning them to the sea only to become shark food - they are better left there." Tõhe named this place Waīhonūhonū (waī/ water, honuhonu/turtles).

From Waīhonūhonū they continued on and came across a large stream with water flowing swiftly out to sea. Tōhe turned to Ariki and said, "Tama, this large amount of water in this creek is coming from the gulies of those mountains in the far distance. Now that the sun is starting to go down, it would be best that we journey on." Tōhe named this place Waīroa (waī/ water, roa/long).

From Waīroa, they journeyed on until they nearly reached the end of Te Tuāru Beach. It was high tide when they arrived at this site, when Tôhe expressed his thoughts to Ariki. "Tama, when we look at this high mountain and the long ridge on the other side, hear the sound of the waves and look at the extent of this beach and the red haze of the setting sun, I am reminded of our Pāat Whāro and saddened that we left behind our homeland at Pīwhane. Therefore, the correct name for this area is Whāro." Tôhe named this area Whāro (view of the horizon).

From Whāro, Tōhe said "Tama, it would be best if we could walk around the edge of these rocks so we can reach the beach on the other side and climb up the sheltered site of that long ridge and rest there for the night. At sunrise the next day Tōhe told Ariki, "Tama, I didn't sleep well last night because of the noise from all the sea birds in the gully here. This has to be the nesting home of all the sea birds in this area." Tōhe named this area Te Kōhanga (Kōhanga/nesting home).

From Te Kõhanga, the pair continued their journey along the coast and when they arrived at their next stop, Tõhe said, "Tama, look, it won't be

long before we receive sustenance from this area. Look at the mullet shoaling behind the waves here." Tama managed to get two mullet for them to eat, using his whale bone. Tôhe named this area Te Hūahūa.

From Te Hūahūa they journeyed on until they came across flora matting and seaweed matting. Tohe turned and said, "Tama, it is near sunset, we will heap up this matting and make a soft bed so we will be warm and comfortable for the night." Tohe named this area Whārikiriki.

It was sunrise when they journeyed on from Whārikiriki. They arrived at this point where Tōhe turned and said, "Tama, we will rest here for a while and look back at the long distance we've walked to reach this point." Tōhe named this area Tauroa.

From Tauroa, they journeyed on and reached an area where Töhe said, "Tama this enclosed channel is an ideal place to gather seafood." They weren't here long when they found crayfish, paūa, kina, kūtai, pūpū kārēngō and all sorts of fish. Töhe turned to Ariki and said, "Tama this channel is an oven full of seafood." Tōhe named this site Te Omū.

From Te Omū they journeyed on and when they reached this place, Tōhe said, "Tama I'm still feeling hungry for seafood. We will rest here and have more to eat." Tōhe named this place Whakaōra.

From Whakaōra, they continued on until they were in need of a rest. While they were here Tōhe said, "Tama, look at the haze of the setting sun piercing through the clouds." Tōhe named this site Ōakura.

From Õakura, they journeyed on to a long beach. It was here when Töhe said, "Tama the sun is starting to set and my body is feeling the cold. Find us a sheltered area so we can bury ourselves in the sand to keep warm for the night." Töhe named this beach Tanŭtanŭ.

From Tanūtanū, the sun was rising as they journeyed on along the beach. They came across more water running out to sea. Tohe turned and said, "Tama that water is running down from the side of those inland rolling hills." Tohe named this place Waïtaha.

From Waītaha, they journeyed along the foreshore of the Ōwhata Harbour and the sky was closing in with dense fog when they reached this place. It was here when Tōhe said, "Tama we can hardly see where we are going because of this dense fog. It is nearing sunset so perhaps we will rest here for the night" Tōhe named this area Rangīkohū (Rangī/sky; Kohū/fog).

From Rangīkohū, the fog was lifting when Tōhe and Ariki continued their journey inland at sunrise. They ventured through a small bush and it was here where they were suddenly surprised to see this dangerous looking trap with very nasty looking ties. Tōhe exclaimed, "Tama be very careful, you may get caught in that nasty looking trap! They have used supplejack for the frame and sown it together with flax. You will die if you were caught by those dangerous ties. We need to move on from here." Tōhe named this place Hērēkino (here/tie; kino/dangerous).

From Hērēkino, they journeyed on until they reached a harbour. It was here where they found ripe fruit on the karaka trees growing here. Töhe said, "Tama, we have food here so we will collect these berries from these karaka trees. It is near sunset so we will rest here for the night. Now that the tide is just on its way out, at sunrise we should be able to find a way of crossing this harbour." Tõhe named this place Whāngapē (whānga/bay,; pē/the inside of the karaka fruit).

From Whāngapē, they crossed the harbour and followed the the coastline to where they reached the Hokiānga Harbour. Tõhe was not physically strong enough to cross such a wide and dangerous Harbour. Tõhe named this place Te Whānui (far too wide). From Te Whānui the pair journeyed inland, following the northern edge of the Hoklānga Harbour and passing several significant sites before reaching a place they believed was a suitable place for them to cross to the other side. They found more karaka trees growing here. Tõhe named this place Mõtükaraka.

From Mõtūkaraka, Tõhe and Ariki achieved their crossing to the other side of the Hokiānga Harbour. It was here where Tõhe said, "Tama we are united again." Tõhe named this place Whīrīnaki (united).

From Whīrīnaki, the pair followed these shores, passing areas now known as Õponõnī and Õmāpere until they reached the entrance of the harbour. They rested here for the night, however the echoing noise from the seals barking in the rock caves below soon made it an unpleasant place to rest. Tõhe called this place Rüakēkēno (rūa/cave; kēkēno/seal).

From Rūakēkēno, they climbed up difficult terrain, to the prominent spur that Tōhe named Te Pikingā, and down the other side which he called Te Hekengā, to reach the flat area in the valley below. It was here where they crossed this undulated swamp Tōhe called Waïwhatawhata (waī/water, whatawhata/undulated).

From Waiwhatawhata, it was sunset when the pair returned to the coastiine. They were alerted to the distinctive kuru calling from the Owl (ruru). Tōhe told Ariki this calling was to let them know there was bad luck ahead for them. Tōhe named this place Pōkuru (pō/night; kuru/owl call).

From Põkuru the pair journeyed on and arrived at a rocky outcrop where they found respite. Tõhe explained to Ariki that this rocky outcrop was like a kaīmoana food basket. Tõhe called this rock Kaīkaī (kaīmoana/food basket).

From Kaïkaï they continued along the beach and found more water flowing out to sea. They ventured inland on to a plateau and found a large river flowing here. Tôhe named this place Waïmamakū (waï/water; mamaku/flowing resource).

From Waīmamakū, the pair journeyed on and covered considerable distance before Tõhe said, "Tama, my health is deteriorating so we need to rest here for the night." It was here when Tõhe began to offer prayers to his ancestral Gods, seeking good health and strength to continue. Tõhe named this place Whakanõa (spiritual blessing).

From Whakanoa the pair continued on until they found a river camouflaged with tree leaves. Tohe named this place Waīraū (waī/water, rau/leaves).

From Waīraū the pair journeyed along the beach then on to a huge plateau below several large mountain. Tōhe named this place Maungānui (maungā/mountain; nui/large).

From Maungānui they journeyed on and found a tidal estuary. Tõhe explained to Ariki that the large catchment of this area was flowing into the river and then into this tidal estuary. Tõhe named this place Waī-Taī.

From Waī-Taī the pair travelled on at a slower pace as Tōhe's health was rapidly deteriorating. It was here where Tōhe said, 'Tāma, I have lost my strength to continue, you need to perform my last rites and allow me to die here so you can return to our home in Pīwhane.'' Tōhe lay down, lost consciousness and passed away here. Sadly, Tōhe's life ended at this site before he was able to reach his daughter Raninikura. His body was later found here surrounded by numerous birds feasting on his corpse. Those who found Tōhe's remains named this site Manuwhētaī (man/bird; whētaī/gratifying). We acknowledge the mountains, the rolling hills, the flora, the lakes, the creeks, the streams, the animals, the sand dunes, the beaches, the coastal sites, the Tasman Sea and other environmental features that Tohe saw, and we are reminded that this was once a truly untarnished environment, brimming with life and sustainable.

Tōhe's love for his daughter Raninikura never dwindled. As his Spirit made the journey back home through Te Ara Wairua and the many places he had seen, before returning to his ancestors of Te Ngake, Te Kaha, Ngăti Kaha, his whānau of Pīwhane made a final tribute to him by snatching his Spirit as he passed through Pīwhane. As a result of his wishes and actions, this truly magnificent place of Pīwhane is now called Kāpowaīrua.

As the great story of Tohe spread throughout the Taïtokeraū, Te Tuāru Beach was renamed by his whānau of Te Kaha, to Te Oneroa a Tohe, ensuring his legacy would last forever.

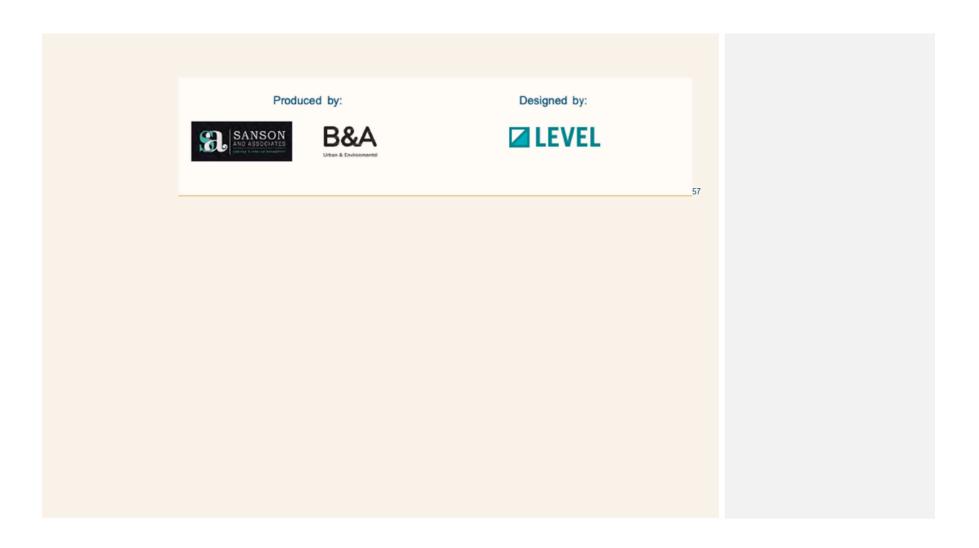

As like many stories, this ending brings us full circle to where Tōhe began his journey. May I extend my appreciation and credit to our Ngāti Kuri Rangatira, Ratima Moko Petera and his brother, Hare Poata Petera for helping me capture this historical account from our Ngāti Kaha ancestors and allowing me to share Tōhe's story for us to portray for generations to come.

A. NGA WHĀRIKITANGA | PREFACE

Ko Hinemoana ki tai, ko te whenua ki uta. Kei reira ngā tapuwae a ngā tūpuna, mai e, mai e. He maharatanga ki a rātou mā, me ō rātou tikanga whakahaere i waihotia e rātou mō ngā uri whakatupu. Koia rā te taonga ō Te Takutaimoana i tukuna ki a tātou hei oranga mō te katoa.

Te Oneroa-a-Töhe/ 90 Mile Beach is a taonga of immense significance to the lwi Maori of Te Hiku o Te Ika. Its management has recently been vested in a co-governance arrangement based on a mutually agreed mechanism gained as redress for historical grievances that have been proven by the Iwi of Te Hiku o Te Ika. A beach board has been established comprising of local government representatives and iwi which are responsible for overseeing the management of the beach, including the seabed extending out as far as the twelve mile limit.

The arrangements represent a partnership that is consistent with Te Tiriti o Waitangi and are designed to enable the iwi to exercise their tino rangatiratanga over issues of significance to them, in giving effect to the management of the beach. The matter of the ownership of the actual beach remains a live issue that is yet to be resolved. However, that is the subject of a claim currently made under the Marine and Coastal Areas Act (MACA) which is still to be considered. Indeed, the goal of the board is to establish a management regime over the beach that enhances its mauri and sustains its environmental integrity. The new regime does not change the ownership of the marine coastal area except the scenic reserve strips which bound the beach on the landward side. These four reserves are owned jointly and severally by the four Te Hiku lwi although are covered by the Reserves Act. However, the underlying ownership remains and any decisions about their future use still lies with the landowner.

Without the inclusion of the reserves the beach management would be deficient in its coverage and break the connection with areas further inland, much of which is iwi owned. For these reasons the board considers their inclusion essential both in geographical terms, but also in cultural and environmental terms. The process for the board's inclusion however is dependent upon the acceptance by the iwi owners to the intent and implementation of the plan (if the reserves are to be included). Further representation in relation to the management plan will occur by iwi appointment of two trustees to each reserve, one of which is expected to be the current iwi board member.

The intent and purpose of the reserves is to accentuate the manawhenua and manamoana interests of the respective iwi affiliated to the beach. It follows that although jointly owned by all the four Te Hiku iwi, each of the reserves is located primarily within the rohe of one particular iwi. This means that each of the invi will have a more significant interest in each of the reserves. This relies on an acceptance by all the four withat will enable each of them to fulfil a secondary objective which is to establish their own cultural icons and their unique historical accounts that are attached to that location.

C. TĪMATANGA KŌRERO | INTRODUCTION

Purpose of the Management Plan

The purpose of the Reserve Management Plan (RMP) is to provide direction for the management and development of Kõhangatī ki Waīkanae

This RMP provides the community with certainty about the function and management of the reserve. It helps make sure management decisions that are consistent with the requirements of Te Hiku lwi settlement legislation, the Reserves Act 1977 and Te Oneroa-a-Tōhe Beach Management Plan.

(Beach Site A) as a more appropriate reference.

Plan Development

This RMP has been developed as part of Te Oneroa-a-Töhe Beach Management Plan. It has been subject to a full notification and public consultation process, with submissions and a hearing to enable public engagement and inclusion.

Plan Implementation and Review

This RMP will be reviewed every 10 years in conjunction with the review of the Beach Management Plan.

D. NGĀ HĪTORI MAI I KŌHANGATĪ KI WAĪKANAE HISTORY OF THE RESERVE

The area from Kōhangatī ki Waīkanae contains numerous important areas and places to Te Hiku Iwi. From the north, the reserve is located just south of Te Paki stream at Kaueparaoa where Tōhe and Ariki had come across a dead whale and extracted its jaw bone for their journey.

From the reserve, the island of Matāpia can be seen, an outstanding sight for Töhe, our ancestors, present and future generations. On the inner shore in line with Matāpia, penguins were once abundant at Kōhangatī as well as large tracts of Tii Tii (cabbage tree). In that time, the natural environment provided by Tane and Tangaroa was abundant.

In this area, a water source from Roto Ngārangi and Roto Pātara come inland from Tīngiri, a once favoured gum digging area, that flows towards the beach.

Similarly, Waïkarörö was named as such for the abundance of Herring Gull that Töhe and Ariki saw that nested in and around the dune areas. Waïkanae was also a place of respite for Töhe and Ariki. Fresh mullet and fresh water was abundant and of the highest quality.

There is quite a large catchment area that leads into Waikarörö. It starts from Whatanui, then Roto O Wiri, Roto Waipara and finally into Waikarörö before it enters the sea.

In Waīkanae, Terae Tore and Ngātuwhetu, Marohere, Roto Waīkanae, further inland makes up another large catchment that feeds into part of the reserve area.

The reserve area itself was unlikely to be permanently occupied by our ancestors. However, occupation was temporary. Kaimoana would be caught out at sea, and brought to the dunes to be harvested further (de-shelled). The reserve was a place where activities were undertaken and associated with traditional food gathering. Middens are known throughout and near the reserve as a result of this use.

The reserve would largely be covered in vegetation. Pingao, Hanapapi (tumble weed) would be most prevalent at the foredune and species such as Tauhinu (cotton weed) in the back-dune. Flax and rushes would be found where marshes,

fresh water streams, creeks and dune-lakes were once found. Today these water sources that emerge and run through the reserve are not as prominent as our ancestors time.

This reserve site, in-fact this entire peninsula was occupied by generations of Te Kaha and Ngāti Kaha and this reserve is unmistakably in the Ngāti Kuri rohe. Our Ngāti Kuri historical account does include inter-tribal skirmishes and unsavoury battles of unrest championed by waring warriors, in their endeavours to gain territorial supremacy over Te Kaha and Ngāti Kaha ancestral land. Unfortunately, this selfish behaviour did claim the lives of hundreds of innocent people along East and West Coast of the Far North peninsula. The majority of these reserve areas are wāhi tapu and must be given the utmost respect and care.

Today, this reserve area is largely characterised by sand dunes, vegetation, dune fauna, beach access ways created by 4x4 vehicle crossings from forestry roads and tracks, a number of waterways, and the landscape has completely changed due to Forestry.

Pine forestry is now the prevailing land use adjoining this reserve and a range of activities are now found on the beach itself. These activities all have the ability to influence and affect this reserve. The reserve will be managed for future generations to come.

E. TE RĀHUI MAI I KŌHANGATĪ KI WAĪKANAE | THE RESERVE

Status of the Reserve Under the Reserves Management Act 1977

The reserve is 18.7500ha (more or less) being contained in Section 2 SO 470146. It has been declared as a reserve and is classified as a scenic reserve for the purposes of the Reserves Act 1977. A copy of the title and restrictions associated with it is included in Appendix 1.

This reserve is jointly vested in ¼ shares between Te Manawa o Ngāti Kuri, Te Rūnanga Nui o Te Aupõuri Trust, Te Rūnanga o NgāīTakoto and Te Rūnanga o Te Rarawa.

Joint Management Body

This reserve area is managed by the Joint Management Body as provided for by Te Oneroa-a-Tōhe settlement legislation. The Body is made up of appointees from the trustees of:

- Te Manawa o Ngāti Kuri Trust;
- Te Rūnanga Nui o Te Aupõuri Trust;
- Te Rūnanga o Te Rarawa.

8 ¹ For example, see sections 68 – 74 of Te Rarawa Claims Settlement Act 2015.

Each ivi authority is able to appoint two members to the joint management body. Members may be appointed, reappointed or discharged at the discretion of the ivi authorities. Appointments last for a term of five years, unless the lwi Authority decides to replace their members before the end of term.

Further provisions relating to the management of the reserve are contained within the settlement legislation of each iwi.¹

Current Uses, Activities and Facilities Available

At present, there are no facilities available or planned within this reserve. This reserve currently provides 4x4 vehicles access to and from the Beach through various forestry tracks.

E. TE RĀHUI MAI I KŌHANGATĪ KI WAĪKANAE | THE RESERVE

Future Uses, Activities and Facilities Available

Uses, activities and facilities must add value to this reserve and the overall management of Te Oneroa a Tōhe. Given the characteristics of this reserve, many of the issues being faced on Te Oneroa a Tōhe are identical or very similar for the other reserves that adjoin it.

In that sense, the two management tools must operate in unison to achieve desired outcomes.

In terms of 'adding value' $\mbox{Iwi/hapū}$ considered to have a greater influence in this reserve may look to:

- Carry out restoration and enhancement projects and activities in the area (dune restoration, riparian restoration along waterways).
- Provide some facilities in the reserve i.e Parking, toilets and caretaker micro camp and information sites.
- Explore leaving one vehicle access from the reserve to the beach (recognising that at certain times of the day, the crossing may provide the only access to/from the beach for 4x4 vehicles.

- Carry out Beach and Whānau Days from this reserve to share food, company and historical stories as well as other forms of passive recreation.
- Restore the reserve to reflect what Tohe saw on his journey (completely restore the areas back to natural state with no to little human modification).
- Restore waterways that once flowed through this reserve back to their natural state (where appropriate possible).
- Exploring whether this reserve and current forestry tracks leading to the Beach could be used for parking- and access ways to this reserve.
- Carry out regular reserve cleaning days to clear the areas of any waste / dumped rubbish.
- Install signage for a range of purposes.

Other than the above, this reserve area is likely to stay relatively untouched. One activity that lwi may not want to see in this reserve is tourist accommodation of any form as it can detract from the impressive and beautiful natural scenery that the reserves provide.

F. NGĀ TŪMANAKO MO KŌHANGATĪ KI WAĪKANAE VISION FOR THE RESERVE

"Kōhangatī ki Waīkanae is maintained as a culturally significant scenic reserve for all of those who come after us."

G. NGĀ WAWATA MAI I KŌHANGATĪ KI WAĪKANAE OBJECTIVES FOR THE RESERVE

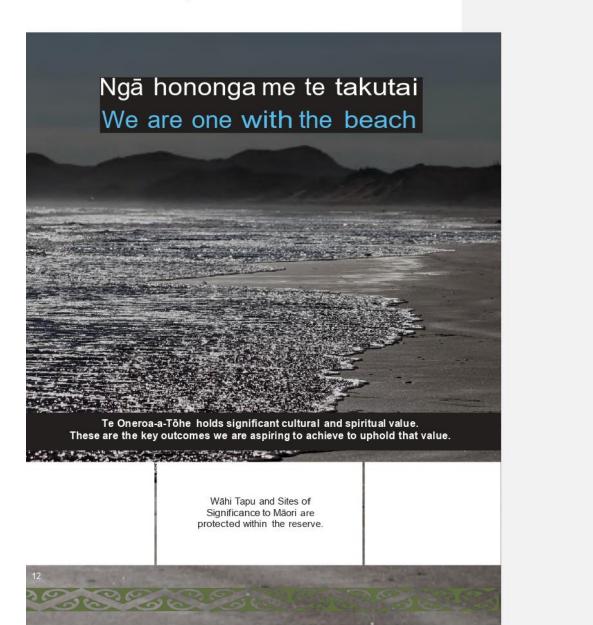

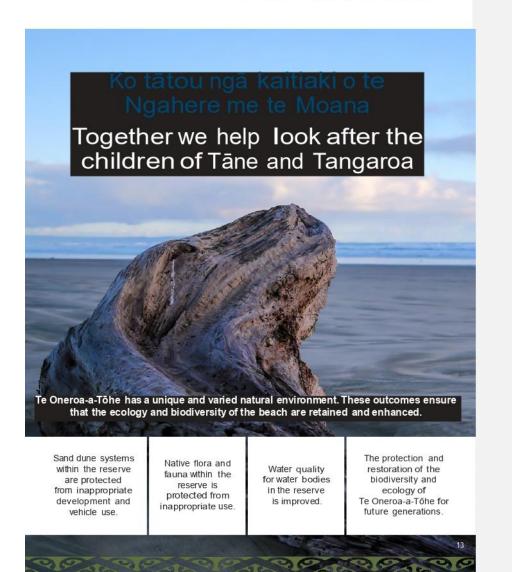

In this case, the current and future activities can be managed by the following objectives outlined below.Where any gaps exist, the Beach Management Plan Objectives, Desired Outcomes and Action Plan takes precedence.

A. NGA WHĀRIKITANGA | PREFACE

Ko Hinemoana ki tai, ko te whenua ki uta. Kei reira ngā tapuwae a ngā tūpuna, mai e, mai e. He maharatanga ki a rātou mā, me ō rātou tikanga whakahaere i waihotia e rātou mō ngā uri whakatupu. Koia rā te taonga ō Te Takutaimoana i tukuna ki a tātou hei oranga mō te katoa.

Te Oneroa-a-Töhe/ 90 Mile Beach is a taonga of immense significance to the lwi Maori of Te Hiku o Te Ika. Its management has recently been vested in a co-governance arrangement based on a mutually agreed mechanism gained as redress for historical grievances that have been proven by the Iwi of Te Hiku o Te Ika. A beach board has been established comprising of local government representatives and iwi which are responsible for overseeing the management of the beach, including the seabed extending out as far as the twelve mile limit.

The arrangements represent a partnership that is consistent with Te Tiriti o Waitangi and are designed to enable the iwi to exercise their tino rangatiratanga over issues of significance to them, in giving effect to the management of the beach. The matter of the ownership of the actual beach remains a live issue that is yet to be resolved. However, that is the subject of a claim currently made under the Marine and Coastal Areas Act (MACA) which is still to be considered. Indeed, the goal of the board is to establish a management regime over the beach that enhances its mauri and sustains its environmental integrity. The new regime does not change the ownership of the marine coastal area except the scenic reserve strips which bound the beach on the landward side. These four reserves are owned jointly and severally by the four Te Hiku lwi although are covered by the Reserves Act. However, the underlying ownership remains and any decisions about their future use still lies with the landowner.

Without the inclusion of the reserves the beach management would be deficient in its coverage and break the connection with areas further inland, much of which is iwi owned. For these reasons the board considers their inclusion essential both in geographical terms, but also in cultural and environmental terms. The process for the board's inclusion however is dependent upon the acceptance by the iwi owners to the intent and implementation of the plan (if the reserves are to be included). Further representation in relation to the management plan will occur by iwi appointment of two trustees to each reserve, one of which is expected to be the current iwi board member.

The intent and purpose of the reserves is to accentuate the manawhenua and manamoana interests of the respective iwi affiliated to the beach. It follows that although owned jointly by all the iwi, each of the reserves is located primarily within the rohe of one particular iwi. This means that each of the iwi will have a more significant interest in each of the reserves. This relies on an acceptance by all the four iwi that will enable each of them to fulfil a secondary objective which is to establish their own cultural icons and their unique historical accounts that are attached to that location.

C. TĪMATANGA KŌRERO | INTRODUCTION

Purpose of the Management Plan

The purpose of the Reserve Management Plan (RMP) is to provide direction for the management and development of Mai IWaīmāhuru ki Hukatere (Beach Site B).

This RMP provides the community with certainty about the function and management of the reserve. It helps make sure management decisions that are consistent with the requirements of Te Hiku lwi settlement legislation, the Reserves Act 1977 and Te Oneroa-a-Tôhe Beach Management Plan.

Waīpapakauri Plan Development

This RMP has been developed as part of Te Oneroa-a-Tōhe Beach Management Plan. It has been subject to a full notification and public consultation process, with submissions and a hearing to enable public engagement and inclusion.

Plan Implementation and Review This RMP will be to be a solution of the Beach in conjunction with the review of the Beach Management Plan.

D. NGĀ HĪTORI MAI I WAĪMĀHURU KI HUKATERE HISTORY OF THE RESERVE

The area from Waīmāhuru to Hukatere contains numerous important areas and places to Ngāti Kuri and Te Aupõuri. A number of places were found and named by Tõhe along his journey. In this Reserve there are numerous inland waterways that linked the ocean with the land. Roimata, Oringo, Te Raena, Waihopo, Te Wiwi and Te Raite link to these waterways.

On their journey, Tōhe and Ariki observed a large swamp area behind the sand dunes as they rested in the Waīmāhuru area. Tōhe explained, "Tama, this huge catchment of swamp water in this area is flowing swiftly from this large wetland further up, and then out to sea. The sun is slowly setting so it would be best for us to cross to the other side of this running water and rest there for the night." Tōhe named this place, Waīmāhuru. (Waī water, Māhuru flowing swiftly).

From Waīmāhuru, the sun was rising the next day when Töhe and Ariki journeyed on land behind the sand dunes called Te Wiwi, (meaning covered with rushes). It was further on from here where they found another underground fresh water well, slowly seeping out to sea. Töhe named this place Waipuna. (Wai water, Puna underground well).

From Waīpuna they continued their journey on land over the sand dunes. It was here where they were suddenly surprised to see sticks standing and sown together with flax. Tohe cautioned Ariki and said "Tama, be careful, don't venture too close to that object, you may get caught. The way those sticks are sown together with flax, indicate that, to be a trap for catching animals however, it appears even humans will get caught. The tide seems to be on its way back in so it would be best that we avoid that trap and go back out to the beach". Tohe named this place, Ngātamarāwaho. (Ngā Tama, we both, Rā, go waho, out)

From Ngātamarāwaho, they continued their journey back to Tuāru Beach. Tōhe said, "Tama, we will rest the night on maunga Utea in the far distance ahead". When they arrived at this place, Tōhe noticed the sea foam in the water, drifting out to sea. Tōhe named this place Hukatere. (koko huka, sea foam, Tere drifting). The reserve area itself was unlikely to be permanently occupied by our ancestors. However, occupation was temporary. Kaimoana would be caught out at sea, and brought to the dunes to be harvested further (de-shelled). The reserve was a place where activities were undertaken and associated with traditional food gathering. Middens are known throughout and near the reserve as a result of this use.

The reserve would largely be covered in vegetation. Pingao, Hanapapi (tumble weed) would be most prevalent at the foredune and species such as Tauhinu (cotton weed) in the backdune. Flax and rushes would be found where marshes, fresh water streams, creeks and dunelakes were once found. Today these water sources that emerge and run through the reserve are not as prominent as our ancestors time.

This reserve site was occupied by generations of Te Kaha and Ngāti Kaha of Ngāti Kuri and Te Aupōuri of Ngāti Ruānui. This is unmistakably within the Ngāti Kuri and Te Aupōuri rohe. Our ancestors historical accounts do highlight the inter-tribal skirmishes and severity of battles to gain territorial supremacy over Te Kaha and Ngāti Kaha ancestral lands. Unfortunately, hundreds of innocent lives were lost on the East and West Coast of Far North peninsula, during these battles. These areas are wāhi tapu and must be given utmost respect and care.

Today, this reserve area is largely characterised by sand dunes, vegetation, dune fauna, beach access ways created by 4x4 vehicle crossings from forestry roads and tracks, a number of waterways, and the landscape has completely changed due to Forestry.

Pine forestry is now the prevailing land use adjoining this reserve and a range of activities are now found on the beach itself. These activities all have the ability to influence and affect this reserve. The reserve will be managed for future generations to come.

E. TE RĀHUI MAI I WAĪMĀHURU KI HUKATERE | THE RESERVE

Status of the Reserve Under the Reserves Management Act 1977

The reserve is 80.8425ha (more or less) being contained in Sections 8, 9, and 10 SO 469833 (more or less). It has been declared as a reserve and is classified as a scenic reserve for the purposes of the Reserves Act 1977. A copy of the title and restrictions associated with it is included in Appendix 1.

The reserve is jointly vested in ¼ shares between Te Manawa o Ngăti Kuri, Te Rūnanga Nui o Te Aupõuri Trust, Te Rūnanga o NgãiTakoto and Te Rūnanga o Te Rarawa.

Joint Management Body

The reserve is managed by the Joint Management Body as provided for by Te Oneroa-a-Tôhe settlement legislation. The Body is made up of appointees from the trustees of.

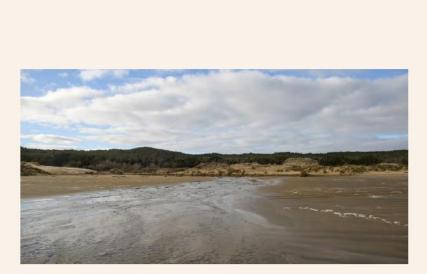

- Te Manawa o Ngāti Kuri Trust;
- Te Rūnanga Nui o Te Aupõuri Trust;
- Te Rūnanga o Te Rarawa.
- 8 For example, see sections 68 74 of Te Rarawa Claims Settlement Act 2015.

Each iwi authority is able to appoint two members to the joint management body. Members may be appointed, reappointed or discharged at the discretion of the iwi authorities. Appointments last for a term of five years, unless the lwi Authority decides to replace their members before the end of term.

Further provisions relating to the management of the reserve are contained within the settlement legislation of each iwi.¹

Current Uses, Activities and Facilities Available

At present, there are no facilities available or planned within this reserve. This reserve currently provides 4x4 vehicles access to and from the Beach through various forestry tracks.

Future Uses, Activities and Facilities Available

Uses, activities and facilities must add value to this reserve and the overall management of Te Oneroa a Tōhe. Given the characteristics of this reserve, many of the issues being faced on Te Oneroa a Tōhe are identical or very similar for the other reserves that adjoin it.

In that sense, the two management tools must operate in unison to achieve desired outcomes.

In terms of 'adding value' to the reserve, Iwi/hapū considered to have a greater influence in this reserve may look to:

- Carry out restoration and enhancement projects and activities in the area (dune restoration, riparian restoration along waterways).
- Provide some facilities in the reserve i.e Parking, toilets and caretaker micro camp and information sites.
- Explore leaving one vehicle access from the reserve to the beach (recognising that at certain times of the day, the crossing may provide the only access to/from the beach for 4x4 vehicles.

- Carry out Beach and Whānau Days from this reserve to share food, company and historical stories as well as other forms of passive recreation.
- Restore the reserve to reflect what Tohe saw on his journey (completely restore the areas back to natural state with no to little human modification).
- Restore waterways that once flowed through this reserve back to their natural state (where appropriate possible).
- Exploring whether this reserve and current forestry tracks leading to the Beach could be used for parking-and access ways to this reserve.
- Carry out regular reserve cleaning days to clear the areas of any waste / dumped rubbish.
- Install signage for a range of purposes.

Other than the above, this reserve area is likely to stay relatively untouched. One activity that lwi may not want to see in this reserve is tourist accommodation of any form as it can detract from the impressive and beautiful natural scenery that the reserves provide.

F. NGĀ TŪMANAKO MŌ WAĪMĀHURU KI HUKATERE VISION FOR THE RESERVE

"Mai I Waīmāhuru ki Hukatere is maintained as a culturally significant scenic reserve for all of those who come after us."

G. NGĀ WAWATA MAI I WAĪMĀHURU KI HUKATERE OBJECTIVES FOR THE RESERVE

In this case, the current and future activities can be managed by the following objectives outlined below.Where any gaps exist, the Beach Management Plan Objectives, Desired Outcomes and Action Plan takes precedence.

A. NGA WHĀRIKITANGA | PREFACE

Ko Hinemoana ki tai, ko te whenua ki uta. Kei reira ngā tapuwae a ngā tūpuna, mai e, mai e. He maharatanga ki a rātou mā, me ō rātou tikanga whakahaere i waihotia e rātou mō ngā uri whakatupu. Koia rā te taonga ō Te Takutaimoana i tukuna ki a tātou hei oranga mō te katoa.

Te Oneroa-a-Töhe/ 90 Mile Beach is a taonga of immense significance to the lwi Maori of Te Hiku o Te Ika. Its management has recently been vested in a co-governance arrangement based on a mutually agreed mechanism gained as redress for historical grievances that have been proven by the Iwi of Te Hiku o Te Ika. A beach board has been established comprising of local government representatives and iwi which are responsible for overseeing the management of the beach, including the seabed extending out as far as the twelve mile limit.

The arrangements represent a partnership that is consistent with Te Tiriti o Waitangi and are designed to enable the iwi to exercise their tino rangatiratanga over issues of significance to them, in giving effect to the management of the beach. The matter of the ownership of the actual beach remains a live issue that is yet to be resolved. However, that is the subject of a claim currently made under the Marine and Coastal Areas Act (MACA) which is still to be considered. Indeed, the goal of the board is to establish a management regime over the beach that enhances its mauri and sustains its environmental integrity. The new regime does not change the ownership of the marine coastal area except the scenic reserve strips which bound the beach on the landward side. These four reserves are owned jointly and severally by the four Te Hiku lwi although are covered by the Reserves Act. However, the underlying ownership remains and any decisions about their future use still lies with the landowner.

Without the inclusion of the reserves the beach management would be deficient in its coverage and break the connection with areas further inland, much of which is iwi owned. For these reasons the board considers their inclusion essential both in geographical terms, but also in cultural and environmental terms. The process for the board's inclusion however is dependent upon the acceptance by the iwi owners to the intent and implementation of the plan (if the reserves are to be included). Further representation in relation to the management plan will occur by iwi appointment of two trustees to each reserve, one of which is expected to be the current iwi board member.

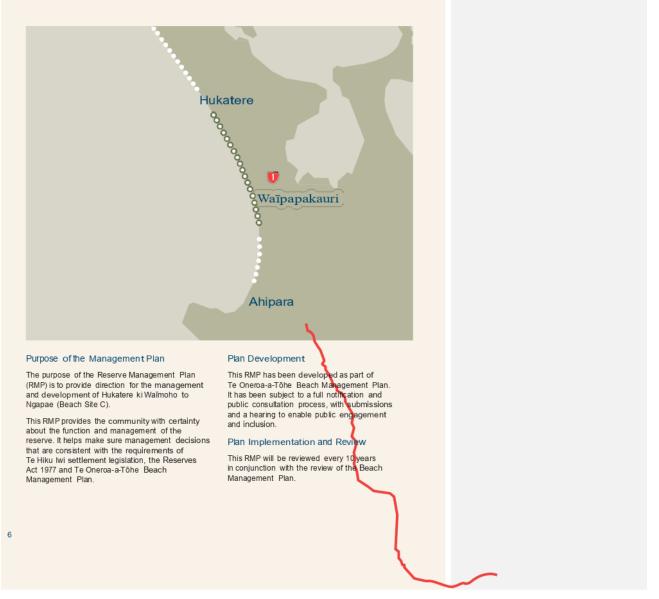

The intent and purpose of the reserves is to accentuate the manawhenua and manamoana interests of the respective iwi affiliated to the beach. It follows that although owned jointly by all the iwi, each of the reserves is located primarily within the rohe of one particular iwi. This means that each of the iwi will have a more significant interest in each of the reserves. This relies on an acceptance by all the four iwi that will enable each of them to fulfil a secondary objective which is to establish their own cultural icons and their unique historical accounts that are attached to that location.

D. NGĀ HĪTORI MAI I HUKATERE KI WAĪMOHO HISTORY OF THE RESERVE

The area from Hukatere to Waīmoho contains numerous important areas and places to Te Hiku lwi. A number of places were found and named by Tōhe along his journey. In this Reserve there are numerous inland waterways that linked the ocean with the land. Roto Ngātu form part of these inland waterways.

On their journey, Tõhe and Ariki, found more water flowing out to sea. They were in need of drinking water at this time so Ariki ventured inland to look for the water source. When Ariki found the source, he was suddenly surprised to see his own shadow in a shallow pool of fresh water. He explained this to Tõhe who named this place Waīmoho. (Waī water, Moho shadow).

From Waīmoho they journeyed on and it was nearly high tide when they reached this area where they first smelt then saw numerous dead sharks lying high ashore. Tohe said, "Tama look at these dead sharks, this is a waste of food and it appears these sharks have been stranded here for a while. The sun was setting at this time when Tohe suggested that they would rest away from the smell over the sand dunes for night". Tõhe named this place, Ngāpae. (Ngā all, Pae together)

The reserve area itself was unlikely to be permanently occupied by our ancestors, however occupation was temporary. Kaimoana would be caught out at sea, and brought to the dunes to be harvested further (de-shelled). The reserve was a place where activities were undertaken and associated with traditional food gathering. Middens are known throughout and near the reserve as a result of this use. The reserve would largely be covered in vegetation. Pingao, Hanapapi (tumble weed) would be most prevalent at the foredune and species such as Tauhinu (cotton weed) in the backdune. Flax and rushes would be found where marshes, fresh water streams, creeks and dunelakes were once found. Today these water sources that emerge and run through the reserve are not as prominent as our ancestors time.

This reserve site was occupied by generations of Ngăti Kuri, Te Aupõuri, NgāiTakoto and Te Rarawa. Our ancestor's stories include intertribal skirmishes and battles. These areas are wähi tapu and must be given utmost respect and care.

Today, this reserve area is largely characterised by sand dunes, vegetation, dune fauna, beach access ways created by 4x4 vehicle crossings from forestry roads and tracks, a number of waterways, and the landscape has completely changed due to Forestry.

Pine forestry is now the prevailing land use adjoining this reserve and a range of activities are now found on the beach itself. These activities all have the ability to influence and affect this reserve. The reserve will be managed for future generations to come.

E. TE RĀHUI MAI I HUKATERE KI WAĪMOHO | THE RESERVE

Status of the Reserve Under the Reserves Management Act 1977

The reserve is 44.2385 hectares, more or less, being Sections 1, 2, 3, and 4SO 469833.1t has been declared as a reserve and is classified as a scenic reserve for the purposes of the Reserves Act 1977. A copy of the title and restrictions associated with it is included in Appendix 1.

The reserve is jointly vested in ¼ shares between Te Manawa o Ngāti Kuri, Te Rūnanga Nui o Te Aupõuri Trust, Te Rūnanga o NgāiTakoto and Te Rūnanga o Te Rarawa

Joint Management Body

The reserve is managed by the Joint Management Body as provided for by Te Oneroa-a-Tõhe settlement legislation. The Body is made up of appointees from the trustees of:

- Te Manawa o Ngāti Kuri Trust;
- Te Rūnanga Nui o Te Aupõuri Trust;
- Te Rūnanga o Te Rarawa.

Each iwi authority is able to appoint two members to the joint management body. Members may be appointed, reappointed or discharged at the discretion of the iwi authorities. Appointments last for a term of five years, unless the lwi Authority decides to replace their members before the end of term.

Further provisions relating to the management of the reserve are contained within the settlement legislation of each iwi.¹

Current Uses, Activities and Facilities Available

At present, there are no facilities available or planned within this reserve. This reserve currently provides 4x4 vehicles access to and from the Beach through various forestry tracks.

8 ¹ For example, see sections 68 – 74 of Te Rarawa Claims Settlement Act 2015.

E. TE RĀHUI MAI I HUKATERE KI WAĪMOHO | THE RESERVE

Future Uses, Activities and Facilities Available

Uses, activities and facilities must add value to this reserve and the overall management of Te Oneroa a Tōhe. Given the characteristics of this reserve, many of the issues being faced on Te Oneroa a Tōhe are identical or very similar for the other reserves that adjoin it.

In that sense, the two management tools must operate in unison to achieve desired outcomes.

In terms of 'adding value' Iwi considered to have a greater influence in this reserve may look to:

- Carry out restoration and enhancement projects and activities in the area (dune restoration, riparian restoration along waterways).
- Provide some facilities in the reserve i.e Parking, toilets and caretaker micro camp and information sites.
- Explore leaving one vehicle access from the reserve to the beach (recognising that at certain times of the day, the crossing may provide the only access to/from the beach for 4x4 vehicles.

- Carry out Beach and Whānau Days from this reserve to share food, company and historical stories as well as other forms of passive recreation.
- Restore the reserve to reflect what Tôhe saw on his journey (completely restore the areas back to natural state with no to little human modification).
- Restore waterways that once flowed through this reserve back to their natural state (where appropriate possible).
- Exploring whether this reserve and current forestry tracks leading to the Beach could be used for parking-and access ways to this reserve.
- Carry out regular reserve cleaning days to clear the areas of any waste / dumped rubbish.
- · Install signage for a range of purposes.

Other than the above, this reserve area is likely to stay relatively untouched. One activity that lwi may not want to see in this reserve is tourist accommodation of any form as it can detract from the impressive and beautiful natural scenery that the reserves provide.

F. NGĀ TŪMANAKO MŌ HUKATERE KI WAĪMOHO VISION FOR THE RESERVE

"Hukatere ki Ngāpae is maintained as a culturally significant scenic reserve for all of those who come after us."

G. NGĀ WAWATA MAI I HUKATERE KI WAĪMOHO OBJECTIVES FOR THE RESERVE

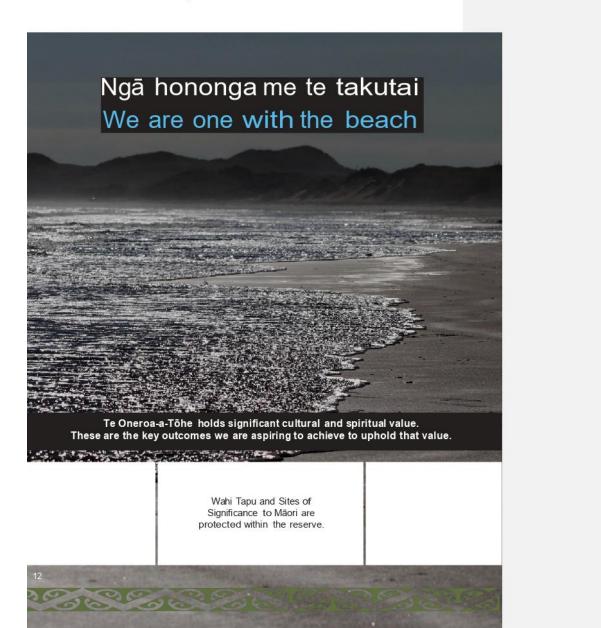

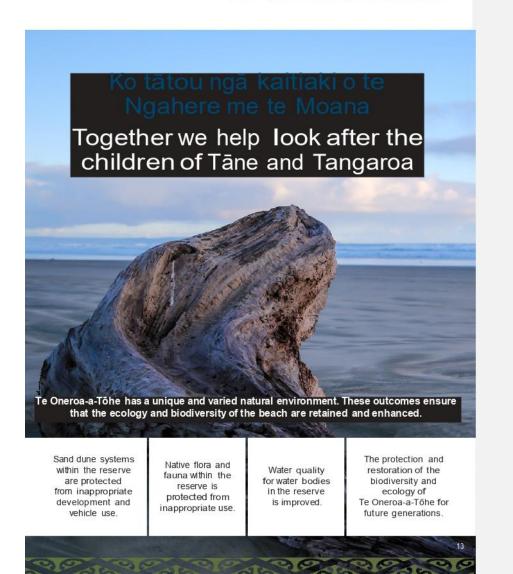

In this case, the current and future activities can be managed by the following objectives outlined below.Where any gaps exist, the Beach Management Plan Objectives, Desired Outcomes and Action Plan takes precedence.

A. NGA WHĀRIKITANGA | PREFACE

Ko Hinemoana ki tai, ko te whenua ki uta. Kei reira ngā tapuwae a ngā tūpuna, mai e, mai e. He maharatanga ki a rātou mā, me ō rātou tikanga whakahaere i waihotia e rātou mō ngā uri whakatupu. Koia rā te taonga ō Te Takutaimoana i tukuna ki a tātou hei oranga mō te katoa.

Te Oneroa-a-Töhe/ 90 Mile Beach is a taonga of immense significance to the lwi Maori of Te Hiku o Te Ika. Its management has recently been vested in a co-governance arrangement based on a mutually agreed mechanism gained as redress for historical grievances that have been proven by the lwi of Te Hiku o Te Ika. A beach board has been established comprising of local government representatives and iwi which are responsible for overseeing the management of the beach, including the seabed extending out as far as the twelve mile limit.

The arrangements represent a partnership that is consistent with Te Tiriti o Waitangi and are designed to enable the iwi to exercise their tino rangatiratanga over issues of significance to them, in giving effect to the management of the beach. The matter of the ownership of the actual beach remains a live issue that is yet to be resolved. However, that is the subject of a claim currently made under the Marine and Coastal Areas Act (MACA) which is still to be considered. Indeed, the goal of the board is to establish a management regime over the beach that enhances its mauri and sustains its environmental integrity. The new regime does not change the ownership of the marine coastal area except the scenic reserve strips which bound the beach on the landward side. These four reserves are owned jointly and severally by the four Te Hiku lwi although are covered by the Reserves Act. However, the underlying ownership remains and any decisions about their future use still lies with the landowner.

Without the inclusion of the reserves the beach management would be deficient in its coverage and break the connection with areas further inland, much of which is iwi owned. For these reasons the board considers their inclusion essential both in geographical terms, but also in cultural and environmental terms. The process for the board's inclusion however is dependent upon the acceptance by the iwi owners to the intent and implementation of the plan (if the reserves are to be included). Further representation in relation to the management plan will occur by iwi appointment of two trustees to each reserve, one of which is expected to be the current iwi board member.

The intent and purpose of the reserves is to accentuate the manawhenua and manamoana interests of the respective iwi affiliated to the beach. It follows that although owned jointly owned by all the iwi, each of the reserves is located primarily within the rohe of one particular iwi. This means that each of the iwi will have a more significant interest in each of the reserves. This relies on an acceptance by all the four iwi that will enable each of them to fulfil a secondary objective which is to establish their own cultural icons and their unique historical accounts that are attached to that location.

C. TĪMATANGA KŌRERO | INTRODUCTION

Purpose of the Management Plan

The purpose of the Reserve Management Plan (RMP) is to provide direction for the management and development of Waïmoho ki Waïmimihä (Beach Site D).

This RMP provides the community with certainty about the function and management of the reserve. It helps make sure management decisions that are consistent with the requirements of Te Hiku lwi settlement legislation, the Reserves Act 1977 and Te Oneroa-a-Tône Beach Management Plan.

Plan Development

This RMP has been developed as part of Te Oneroa-a-Töhe Beach Management Plan. It has been subject to a full notification and public consultation process, with submissions and a hearing to enable public engagement and inclusion.

Plan Implementation and Review

This RMP will be reviewed every 10 years in conjunction with the review of the Beach Management Plan.

D. NGĀ HITORI MAI I WAIMIMIHA KI NGAPAE HISTORY OF THE RESERVE

The Waïmimihā Reserve is in the southernmost location of the Iwi-owned reserves and is unmistakably within the Te Rarawa rohe. Waïmimihā is a Māori term for whale ambergris. It is also the name of a localised system of lakelets that is itself connected to the Tangonge hydrology. Both systems are historical and cultural food sources of great significance and Waïmimihā has for centuries been an essential camping location for Te Rarawa and other iwi before them. Like Whāro, it features in many historical accounts of Te Rarawa history. As a place of spiritual significance, Wamimihā was the place that Te Rarawa eklers met ant communed with a female deity called Moehau woo arrives by riding atop a whale in response to a plea by the iwi. Te Rarawa (Ngāti Moetonga) last consulted with Moehau during the 1920s in relation to ending a year long drought.

D. NGĀ HĪTORI MAI I WAĪMOHO KI WAĪMIMIHĀ KI NGAPAE HISTORY OF THE RESERVE

Waīmimiha Lake is also a lair of the taniwha Paraweta and for many generations has been considered a place of great cultural significance. It is also a well established and known mahinga kai as a site for collecting, preparing and preserving all manner of food. These have included both fresh and seawater species of fish life, crustaceans, birdlife and vegetation.

The reserve area is also continually occupied by Te Rarawa whānau throughout the year and is managed by the Ahipara Takiwa Committee of Te Rarawa. Waīmimihā is also a mahinga mataitai for tuatua, pipi and toheroa. It is a common landing place for mussel spat and is a site that is considered special, and one that ought to be free from culturally repugnant activities. A carved pou whenua has been erected at Waīmimihā to signify Te Rarawa's affiliation and cultural association with the site which provides for the lwi, both spiritually and economically.

Ngāpae is an area of the beach where access has been hindered by land sales to European settlers which have prevented the people of Pukepoto from being able to fully utilise the resources of both the beach reserve area and Lake Tāngonge. Instead of direct access they have had to get on to the beach either through the Ahipara entrance (south of the reserve), or Waipapakauri (north of the reserve). Inland is the Tangonge lake system which was a main source of many foods and resources and this also was blocked off by pākehā ownership removing a significant area of lake, land and beach from full use and access. While it remains a source of food this has been impacted upon and diminished as the farmlands have developed and access denied to customary users.

The Waihou channel which is a major outlet into the Rangaunu Harbour was utilised by Māori leaders including the descendants of Te Ruakuru, a sister of Poroa, who have historically populated the entire area around the lake which, before its draining by settlers, was the largest lake in the Far North sprawled out between Pukepoto and Kaitaia. The absence of a waterway on to the Te Oneroaa-Tõhe was the subject of debate at the time of Tamatea (between 1200 and 1300AD) and his sons including Kahungunu who unsuccessfully tried to create a breakout to the west coast. Adjusting the hydrology of the lake and lowering its level was possible due to its shallow nature and this was a practice of Te Ripi Puhipi at certain times.

Unfortunately the idea was adopted by the European settlers who subsequently proceeded to completely and permanently drain the lake to become a mere shadow of itself and ruining numerous aspects of its ability to provide sustenance for the people of Te Rarawa. This is the context of the reserve from a landward perspective.

The beach itself is of course a part of the historical carriageway between various communities and that is why there is a multi iwi interest in it. But not only a carriageway for the needs of the living but also of the dead. So it forms a section of the Arawairua which traverses the entire length of the beach between the high and low water mark. At its northern end is the Puketutu Pā site which is commented on in Te Rarawa history as an important pou of Te Rarawa necupation. It was in actual fact the last proper pā that was occupied by Te Rarawa under the mana of Waka Rangaunu who at times of the year resided there followed by his son Rewi Ngapera whose descendants continue to live in Ahipara today. Ngāpae itself is also a scene of historical conflict between the people of Aupouri and Te Rarawa.

During the conflict a line was drawn by Poroa (Te Rarawa) across the beach and through the heat of the battle which became a lifeline for Aupouri, enabling them to retreat to Hukatere in the north and occupy Utea Pā. This part of the beach has since been known as Te One I Haea a Poroa and is an important historical marker for both the Te Aupôuri and Te Rarawa people.

The meaning of the name Ngāpae (Ngā – all, Pae – together), comes from Töhes journey along the beach, where at the location, he and Ariki smelt and saw numerous dead sharks lying together stranded high on the shoreline.

Thus, the reserve has its own mana and korero that is held dear by the lwi of Te Rarawa and is a subject of constant revival of tikanga and other practices associated with its use, both historically and into the future.

E. TE RĀHUI MAI I WAĪMOHO KI WAĪMIMIHĀ | THE RESERVE

Status of the Reserve Under the Reserves Management Act 1977

The reserve is 72.1300 hectares, more or less, being Section 1 SO 469396.It has been declared as a reserve and is classified as a scenic reserve for the purposes of the Reserves Act 1977. A copy of the title and restrictions associated with it is included in Appendix 1.

The reserve is jointly vested in ¼ shares between Te Manawa o Ngāti Kuri, Te Rūnanga Nui o Te AupõuriTrust, Te Rūnanga o NgāiTakoto and Te Rūnanga o Te Rarawa.

Joint Management Body

The reserve is managed by the Joint Management Body as provided for by Te Oneroa-a-Tôhe settlement legislation. The Body is made up of appointees from the trustees of:

- Te Manawa o Ngāti Kuri Trust;
- Te Rūnanga Nui o Te Aupõuri Trust;
- Te Rūnanga o Te Rarawa.

Each iwi authority is able to appoint two members to the joint management body. Members may be appointed, reappointed or discharged at the discretion of the iwi authorities. Appointments last for a term of five years, unless the lwi Authority decides to replace their members before the end of term.

Further provisions relating to the management of the reserve are contained within the settlement legislation of each iwi.¹

Current Uses, Activities and Facilities Available

At present, there are no facilities available or planned within this reserve. This reserve currently provides 4x4 vehicles access to and from the Beach through various forestry tracks.

8 ¹ For example, see sections 68 – 74 of Te Rarawa Claims Settlement Act 2015.

E. TE RĀHUI MAI I WAĪMOHO KI WAĪMIMIHĀ | THE RESERVE

Future Uses, Activities and Facilities Available

Uses, activities and facilities must add value to this reserve and the overall management of Te Oneroa a Tôhe. Given the characteristics of this reserve, many of the issues being faced on Te Oneroa a Tôhe are identical or very similar for the other reserves that adjoin it.

In that sense, the two management tools must operate in unison to achieve desired outcomes.

In terms of 'adding value' lwi considered to have a greater influence in this reserve may look to:

- Carry out restoration and enhancement projects and activities in the area (dune restoration, riparian restoration along waterways).
- Provide some facilities in the reserve i.e Parking, toilets and caretaker micro camp and information sites.
- Explore leaving one vehicle access from the reserve to the beach (recognising that at certain times of the day, the crossing may provide the only access to/from the beach for 4x4 vehicles.

- Carry out Beach and Whānau Days from this reserve to share food, company and historical stories as well as other forms of passive recreation.
- Restore the reserve to reflect what Tōhe saw on his journey (completely restore the areas back to natural state with no to little human modification).
- Restore waterways that once flowed through this reserve back to their natural state (where appropriate possible).
- Exploring whether this reserve and current forestry tracks leading to the Beach could be used for parking-and access ways to this reserve.
- Carry out regular reserve cleaning days to clear the areas of any waste / dumped rubbish.
- Install signage for a range of purposes.

Other than the above, this reserve area is likely to stay relatively untouched. One activity that lwi may not want to see in this reserve is tourist accommodation of any form a sit can detract from the impressive and beautiful natural scenery that the reserves provide.

F. NGĀ TŪMANAKO MŌ WAĪMOHO KI WAĪMIMIHĀ VISION FOR THE RESERVE

"Waīmoho ki Waīmimihā is maintained as a culturally significant scenic reserve for all of those who come after us.""

G. NGĀ WAWATA MAI I WAĪMOHO KI WAĪMIMIHĀ KI WAIMIMIHĀ OBJECTIVES FOR THE RESERVE

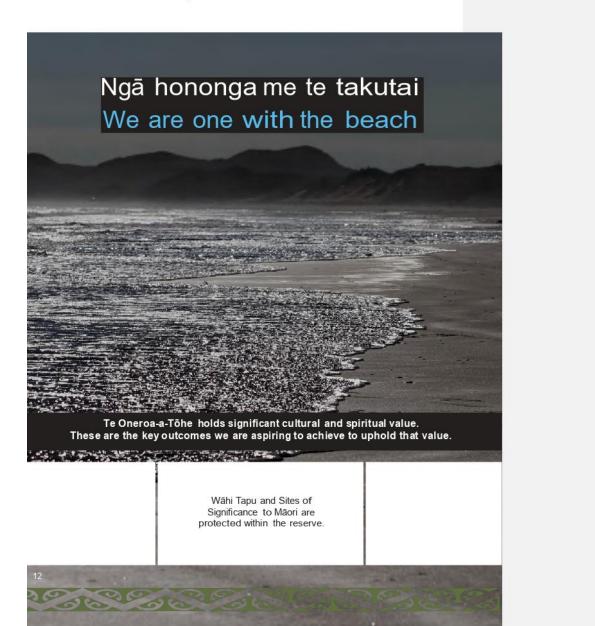

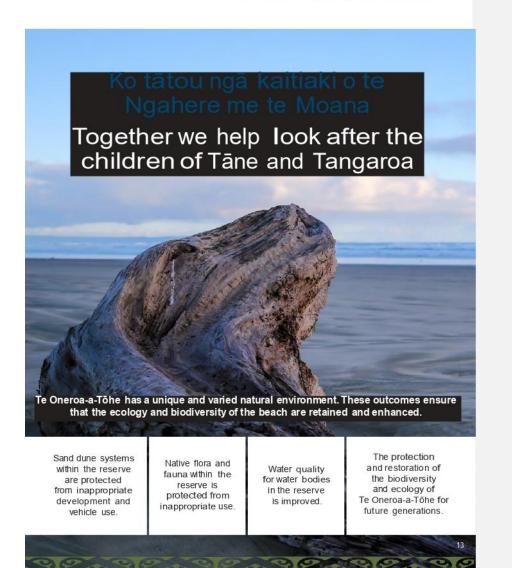

In this case, the current and future activities can be managed by the following objectives outlined below.Where any gaps exist, the Beach Management Plan Objectives, Desired Outcomes and Action Plan takes precedence.
